November 3rd 5:00–6:45

We proudly present our 4th annual

Hood STEAM Night!

★This is a fun–filled family event organized by the Hood School. This event is designed to engage students in science, technology, engineering, art and mathematics. Enjoy an evening of building, problem solving and teamwork.

★ In order to make sure we have room and enough materials for this event we are asking families to pre–register.
- Use the **STEAM Night link** in order to register your family for this event.
- All forms must be returned by October 25th. We will not be able to permit families that have not pre–registered.
- There will be two sessions offered 5:00–5:45 and 6:00–6:45.
- We will see how many families are interested and then we will send out a survey to have you sign up for an arrival time.

★ The teachers are really excited to enjoy another STEAM Night with our Hood School community.

We hope to see you there!
