STUDENT OPPORTUNITIES ACT

- The act establishes new, higher foundation budget rates in 5 areas:
 - Benefits and fixed charges
 - Guidance and psychological services
 - Special education out-of-district tuition
 - English learners
 - Low income students
- House 1 includes rate changes above inflation toward the goal rates in these 5 areas;
- Phased in over a 7 year period;
- Districts must submit rolling 3 year plans on how additional funds will be spent.

STATE BUDGET PROCESS

The state budget process

THERE ARE THREE PRIMARY STEPS IN DETERMINING EACH DISTRICT'S CHAPTER 70 AID

Define and calculate a foundation budget for each district, given the specific grades, programs, and demographic characteristics of its students represents level funding needed to provide an adequate education to all students

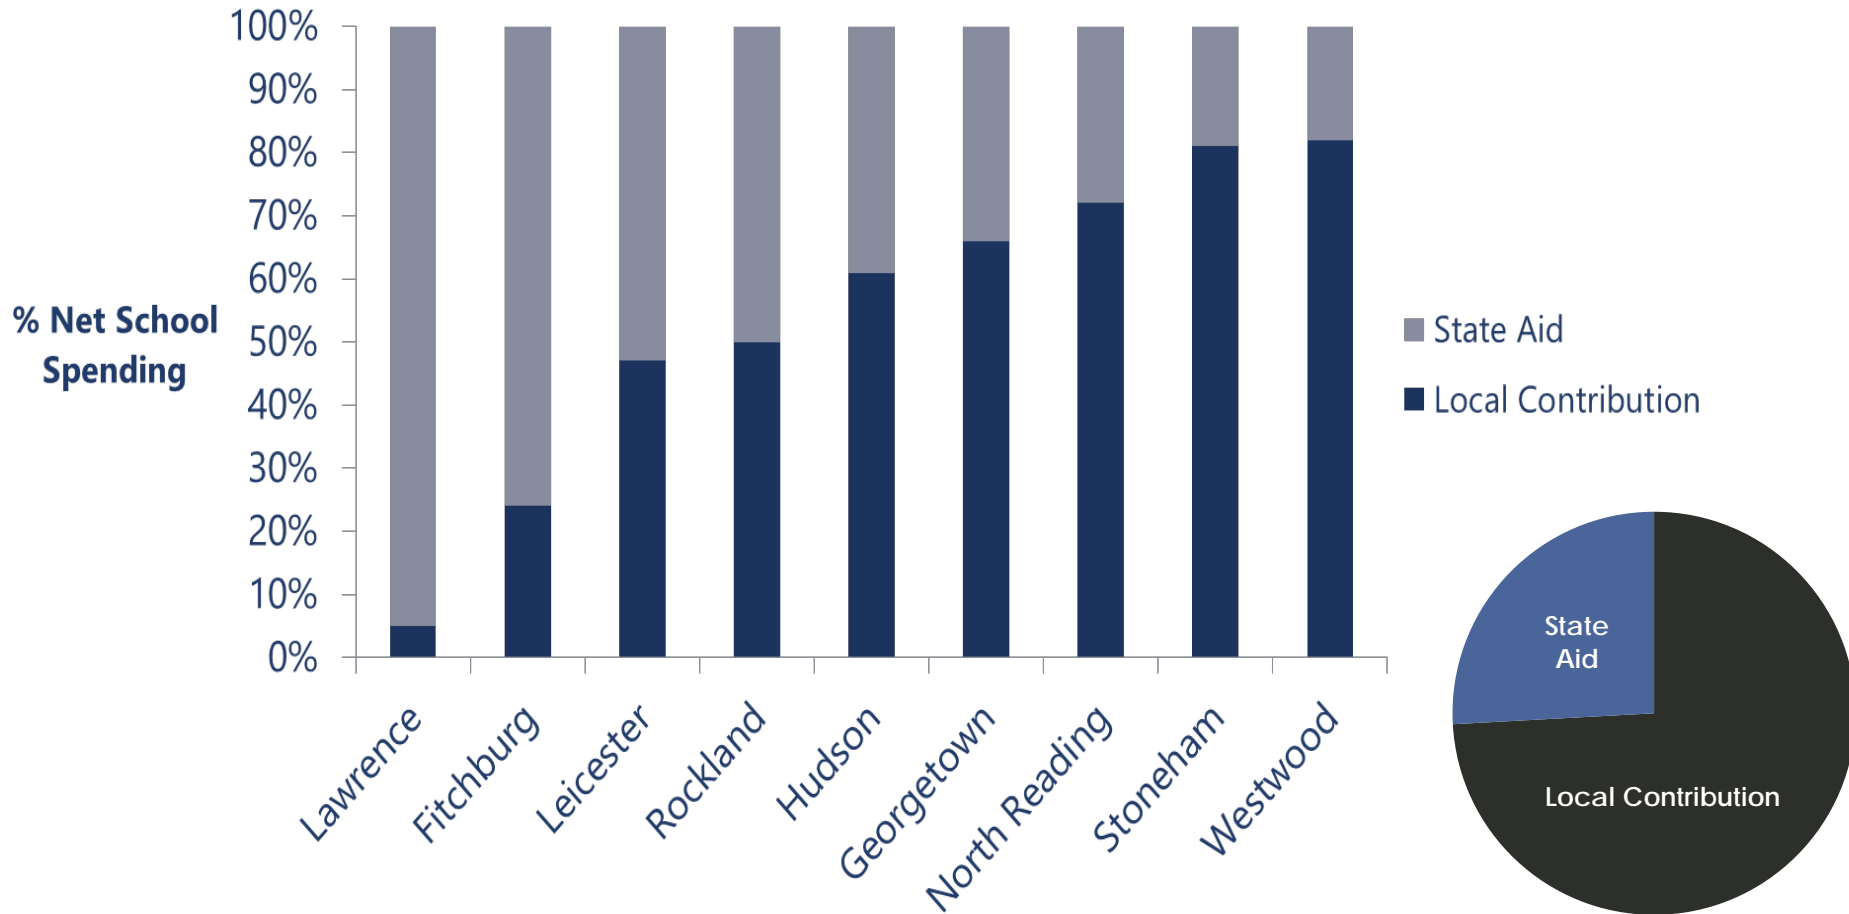

Determine an equitable local contribution requirement, how much of the foundation budget that should be paid for by each city and town's property tax, based upon the relative wealth of the municipality

Calculate state aid, providing necessary funds to reach foundation or mandated minimum aid increases

Local Contribution + State Aid = a district's net school spending (NSS) requirement
This is the minimum amount that a district must spend to comply with state law. Most Districts including North Reading spend more than the minimum by an average of 20%. North Reading in FY 21 spent approx. 30% more than the requirement.

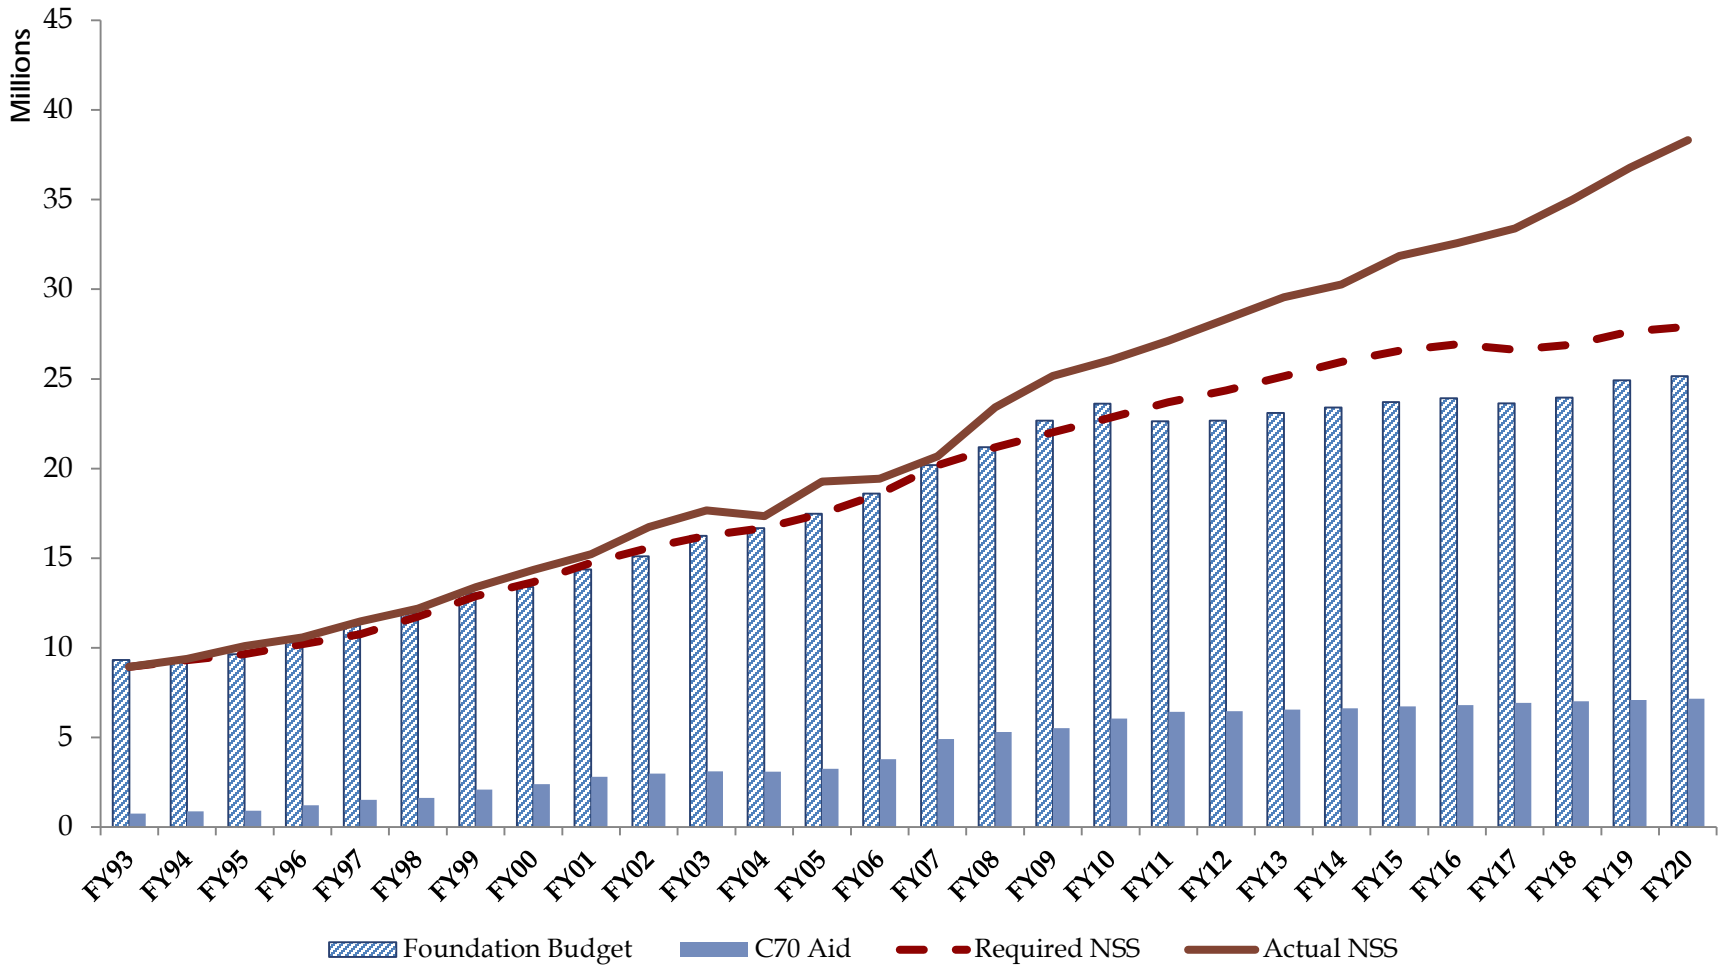

Districts receive different levels of Chapter 70 aid because their municipality's ability to pay differs

In the case of North Reading, the required local contribution is equal to about 72%, and the amount of state aid is equal to 28%. North Reading's target aid is actually a lot less at 17.5%, so North Reading is well above their target aid share. Stoneham and Westwood are also 17.5% minimum aid communities and they are right about at their target aid.
