NORTH READING PUBLIC SCHOOLS

"Pursuit of Excellence"

February 15, 2024

Dear North Reading School Committee Member:

I am pleased to present to you the Fiscal Year 2025 Preliminary Budget for the North Reading Public Schools. In accordance with the direction provided by the School Committee, the Preliminary Budget (1) reflects costs associated with level services; (2) the highest of priorities in Year five of the district's developing strategic plan, "NRPS 2025"; (3) continuation of key positions identified as needs during the covid-19 pandemic that have been funded by federal relief grants; (4) associated costs to properly maintain all school campuses. The Preliminary Budget represents the most accurate figures available at this time.

The recommended budget proposed for FY 2025, as compared to FY 2024, reflects an overall increase to the budget by 9%. The proposed budget appropriation for FY 2025 is \$40,679,524. This reflects an increase of \$3,359,929 over the FY 2024 budget figure of \$37,319,595. Several factors account for the increase in the overall Preliminary Budget as presented:

- "NRPS 2025: A Strategy for the Future" (Year Five);
- Maintains and adds staff to: (1) maintain educationally sound student/teacher ratios especially at the elementary level; (2) enhance academic support systems to address any areas of learning loss and support early intervention strategies for students struggling in math and literacy (3) maintain adequate health and safety services for all students, staff and the school community (4) address the social, emotional and mental health needs of all students (5) enhance the curriculum leadership model within the district to support all educators in curriculum, instruction and assessment strategies;
- Contractual obligations with employees and employee unions;
- Continuation of the District 1:1 student device program in grades K thru 12;
- Associated operational costs to properly maintain all five schools and surrounding campuses.

The FY 2025 recommended Preliminary Budget includes funding needed to implement a portion of Year Five of the school district's developing strategic plan, "NRPS 2025: A Strategy for the Future." The three major strategy areas of "NRPS 2025" are Teaching and Learning, Student Support Services, and Equity. The budget priorities identified below are directly connected to all three of the major strategy areas and are supported by the work of the Leadership Team on the strategic plan.

The “Modified Level Services” budget includes an increase of 5.6 FTE positions, which are listed as priorities in the strategic vision of the school District. These new positions reflected in the recommended Preliminary Budget include:

School /Dept.	NRPS: 2025 Needs	Amount	NRPS 2025 Strategy
Elementary	0.6 FTE School Adjustment Counselor	52,635	Student Support / Equity
District	1.0 FTE Math Coach	78,176	Teaching & Learning
District	1.0 FTE Literacy Coach	78,176	Teaching & Learning
MS / Elem.	2.0 FTE Academic Interventionist	156,352	Teaching & Learn. / Support
District	1.0 FTE Humanities Coordinator	111,550	Teaching & Learning
Total	5.6 FTE	\$476,889	

The positions previously added and funded by Covid-19 federal relief grants to address needs associated with the Covid-19 pandemic that have been identified as essential services to continue in fiscal year 2025 and are now reflected in the recommended Preliminary Budget include:

School / Department	Position	Grant Offset
Student Services	1.0 FTE Floater Nurse	\$43,000
Technology	1.0 FTE Data Technicians	\$50,000
Student Services	1.0 FTE School Adjustment Counselor Elementary	\$60,000
Student Services	1.0 FTE School Adjustment Counselor Secondary	\$60,000
Total	4.0 FTE	\$213,000

The recommended Preliminary Budget supports the highest of priorities of the strategic plan and results in an expenditure of \$476,889, (in table above) representing an overall increase of 1.3% to the FY 2025 budget request. In addition, the recommended Preliminary budget maintains recommended class sizes and student teacher ratios across the District and continues to address needs heightened by the Covid-19 pandemic. The preliminary budget proposal also includes moving to free universal full day kindergarten for all families next school year.

It is noteworthy that the recommended Preliminary Budget fails to support the full complement of initiatives identified in the district’s strategic budget vision. The reason for this is rooted in the recognition of the fiscal challenges that the community currently faces.

The Preliminary Budget represents a starting point for budget deliberations. As we move forward in the budget process, the FY 2025 Budget Goals established by the School Committee and the school districts strategic plan for continuous improvement will provide guidance as we make important decisions in the weeks ahead. I look forward to working with you and the citizens of North Reading throughout this process as we work to ensure that all students are provided the best possible educational program. In closing, I wish to acknowledge the efforts of the district administrators, for their many contributions to the development of the Fiscal Year 2025 Preliminary Budget for the North Reading Public Schools.

Sincerely yours,

Dr. Patrick C. Daly, Superintendent

TO: North Reading School Committee

Dr. Patrick Daly, Superintendent

FROM: Michael A. Connelly, Assistant Superintendent of Finance & Operations

Enclosed is the North Reading Public School's preliminary budget for fiscal year 2025. While I believe it addresses the goals of transparency and simplicity, I know that there are refinements to be made and I welcome your comments. It is still relatively early in this process and it is important to note that these budget numbers will most likely change as we receive more information from the state, and additional guidance from the North Reading Finance Planning Team.

The preliminary budget for FY 2025 is \$40,679,524 which reflects a \$3,359,929 increase over FY 2024, reflecting an increase of 9%. The modified level services budget is a budget that currently exceeds the Finance Planning Team's guideline budget amount.

The FY 2025 operating budget documents are presented in three different "views." The first view is in line with the template that has been provided in the past and displays the budget salary and expense detail by DESE function code. The next view is a budget sorted by major category of expenditure: salaries, contracted services, supplies/materials, professional development expenses, transportation, utilities, tuitions, and small capital and equipment. This view helps clarify the percentage of the budget spent on salaries, utilities, tuitions and instructional supplies. This is included in the *Operating Budget* section of the budget book. The final view is the budget sorted, by major DESE cost centers including district administration, instructional, student services, operations and fixed charges, community services, equipment, and tuitions. A summary of the budget by major cost center is included in the *Operating Budget* section of the budget book. I have also included additional information in the budget book to allow for further analysis and discussion.

I want to acknowledge all of the work that was done by the Principals and Directors, and by my colleagues on the Administrative Council, who worked so very hard to discuss student needs, think creatively, and make difficult decisions that ultimately affect the quality of the student experience in the North Reading Public Schools.

EXECUTIVE SUMMARY

This budget has been prepared in accordance with the guidelines of the School Committee and Finance Planning Team and includes a “Modified Level Services” budget proposal, which considers necessary adjustments in personnel due to changes in enrollment and needs of in-district special education programs. This budget also includes personnel increases to achieve the educational objectives identified in the district’s five-year strategic plan for continuous improvement known as “NRPS 2025” although not to the fullest extent. The preliminary budget for the 2024-25 fiscal year is \$40,679,524. This represents a \$3,359,929 increase, which is 9.0% higher than this year’s appropriation. The school department has, for the last several fiscal years, operated under a modified level services budget philosophy. This means that the spending has essentially been the same as the previous year except for modifications due to shifts in enrollment, contractual salary obligations, operational fixed costs, and modest enhancements driven by the school district’s educational strategic plan, “NRPS 2025,” to make continuous improvements to the school department’s educational programs.

FY 2024 Budget	FY 2025 Preliminary Budget	% Increase
\$37,319,595	\$40,679,524	9.0%

Finance Planning Team Guidelines

The Finance Planning Team meets regularly and reviews the revenue and expense forecasts based on the most up-to-date information for the FY 2025 revenue picture at the state and local levels. These forecasts impact the recommended revenue amounts that are available for both the town and the school budgets after fixed costs for expenses, which among other expenses include debt service, employee benefits, liability insurances, and regional school assessment costs. The FY25 preliminary budget exceeds the guidelines set forth by the Finance Planning Team.

Key Budget Assumptions

Below is a list of key budget assumptions that were made as part of the FY 2025 budget proposal.

General Revenue Assumptions:

- Increases in unrestricted local aid and Chapter 70 are applied based on the most recent information in the state budget;
- Standard Federal and State entitlement grants budget offsets are assumed to be funded at the same level as FY 2025;
- Elimination of all ESSER federal relief grants that will be spent at the end of FY 2024 and are no longer available. (\$213,000 financial impact)

EXECUTIVE SUMMARY

- State Circuit Breaker program is assumed to be funded with a 75% reimbursement rate, which is the estimated rate based on the most recent information in the state budget.
- Continues with the plan to eliminate the full-day kindergarten tuition fee and officially move to continue to move towards free universal full day Kindergarten.

Salary Assumptions:

- Includes all step, lane, and longevity contractual increases to meet contractual obligations for current administration and support staff;
- Includes a reduction of \$175,000 for anticipated savings for staff retirements, resignations and attrition;
- Includes a salary pool for the anticipate financial impact of negotiated cost of living adjustments with the North Reading Teachers Association (NREA) whose contract is yet to be settled;

New Enrollment & Programmatic Driven Positions:

- 1.5 FTE grade level teachers resulting in an increase in enrollment
- 0.5 FTE Elementary Specialists (Art, Music, PE/Health) due to increase in enrollment
- 0.5 FTE Elementary Special Education Teacher due to programmatic needs and enrollment

New Positions guided by the District Five-Year Strategic Plan

- 1.0 FTE K-12 Humanities Coordinator
- 2.0 FTE K-8 Math and Literacy Coaches
- 2.0 FTE Elementary Academic Interventionists
- 0.6 FTE Elementary School Adjustment Counselor

Fixed Cost Assumptions:

- 6.5% increase in the assessment for the district from the Middlesex County Retirement System by the Town;
- 14% increase in health insurance costs;
- 3% increase in Regional School Assessment for North Reading students attending both the Northeast Metropolitan Regional Vocational School and Essex Technical High School;
- 3.0% Increase in Worker's Compensation and General Liability Insurance;
- 4% increase in School Medicare costs.

Special Education:

- Assumes the circuit breaker reimbursement amount received in FY 24 for FY 23 expenses. This amount of \$1,413,492 will represent the FY 25 budgetary offset amount. Assumes the circuit breaker program will continue to be funded fully at a 75% reimbursement rate and includes `new funding proposed as part of the Student Opportunities Act which now includes reimbursement for transportation costs;

EXECUTIVE SUMMARY

- Assumes a 5% COLA increase in special education outside placements and transportation cost;
- Assumes \$150,000 of out of district tuitions will be prepaid with FY 2024 year-end funds which is allowed per state finance regulations.

Other Expenses and Contractual Services:

- School expense budgets include adjustments due to inflationary increases and to ensure a funding level at above the five year per pupil funding average at each school.
- Utility budgets are projected on a three-to five-year trend analysis based on usage, pricing and based on rate and usage information that is known at this time.
- Known contractual increases have been applied to contractual services, including regular transportation; audit services, legal services, print and copy machine management services; and other human resources and student management software increases have also been applied;
- Continuation of preventative maintenance service contracts to maintain the four school campuses including, HVAC, Energy Management Systems, lighting controls, security equipment, are included in the budget proposal;
- Contractual increases have been applied to the district operational maintenance and on-call labor contracts for the following trades have been applied: HVAC, Electrical, Plumbing, Heating and Boiler maintenance, Roofing maintenance, Fire and alarm system monitoring, Elevator and lift maintenance, Fire and sprinkler system maintenance, and security equipment maintenance.
- Waste Water Treatment Plant operational contractual increases have been applied to ensure continuation of successful operation of the Middle/High School's Waste Water Treatment Facility;
- Increases for other maintenance and grounds service agreements for landscaping, athletic field treatment and snow removal services have been applied.

Revenue and Budget Offsets/Subsidies:

- The transportation revolving account offset will increase to \$400,00 which assumes the district will have \$150,000 of carry over funds available;
- The athletic revolving account offset is estimated to be \$300,000 annually from revenue generated from user fees and gate receipts. This offset assumes the district will have up to \$30,000 of carry over funds available and represents 40% of all athletic expenses and supports all the non-salary related athletic program expenses including transportation, trainer, game officials and workers, team supplies and equipment, ice, pool, tennis and other rental costs, dues and membership fees; scouting and other software systems. The costs for the athletic director, secretary, and coaches' salaries, are supported by the general operating budget.
- The extra-curricular revolving account offset will be \$60,000. The budget assumes this user fee will remain at \$200 for middle and high school students.
- The performing arts user fee that was introduced in FY 2024 at each level the budget assumes this remain the same, which is \$200 1st Activity, \$100 2nd Activity, \$50 3rd Activity at the High School, and \$150 1st Activity, \$75 2nd Activity, \$50 3rd Activity at

EXECUTIVE SUMMARY

the Middle School, and \$100 at the elementary level. This accounts for a total general fund budget offset of \$28,500.

- The building rental offset will remain at \$75,000, the proposed rental fee rate scheduled remains unchanged;
- The detailed assumptions of school revenue budget offsets used in the FY 2025 budget, including federal and state grant levels, are included in the budget document. All federal and state grant awards are expected to remain the same in FY 2024.

Major Budget Drivers

Contractual Salary Obligations

Funds are included to meet all required contractual salary obligations for the district's professional and support staff. Personnel services and salary obligations represent 83% of the total FY 2025 modified level services budget request. This includes the cost for steps, lane movements, and longevity increases for all eligible staff. The administrators, paraprofessionals, custodians, administrative assistants and other non-union staff members' contracts are settled through FY 2025. The North Reading School Committee is currently negotiating a new contract with the North Reading Teachers Association and there is a salary pool included based on the anticipated cost of the new contract. A turnover amount is also calculated and subtracted from the FY 2025 total salary budget based on historical trend data. The turnover reduction takes into account the anticipated retirements, resignations, and leaves of absences, which historically occur after the budget is approved but prior to the start of the school year. In the rare event that no unanticipated turnover is realized, the school department's personnel service budget request would be underfunded.

Special Education Costs

Funds needed to support anticipated out-of-district tuitions and transportation costs are expected to increase in FY 2025. The district anticipates an increase in the number of students requiring out-of-district placements and transportation in FY 2025. The FY 2024 budget included out-of-district placement and transportation costs for 37 students. The FY 2025 budget anticipates the amount will increase by three students, and the district will have 40 students in out-of-district placements. In addition, to additional students being educated outside the district to meet their needs, the Operational Services Division (OSD) who sets the tuition prices for Massachusetts approved private special education programs for cities and towns has approved a tuition rate increase at 5% for FY'25. Although not as high as last year's 14% mark this rate increase is still significant. In North Reading, this rate increase accounts for almost a \$70,000 increase in the out-district-tuition budget next year.

The district continues to evaluate its special education programs and, where appropriate, has reallocated current resources to provide additional student support services and increased social and emotional support. These programs assist with reducing the potential need for outside placements and special education services. Currently, 18.4% of our student population, including students being educated outside the district, receive special education services. The 18.4% statistics is right below the state average of 20.2%, which is reflected in the table below. The table below illustrates that North Reading students in outside

EXECUTIVE SUMMARY

placements have ranged anywhere between 28 and 37 students over the last six years, currently representing 1.0% of all students being placed in out-of-district programs; which is right at the current state average of 1.1%. The anticipated 40 students in out-district placements in FY'25 would represent the most students being educated out-side the District since the 2009-10 school year. In addition, currently, 8.5% of students receiving special education services are educated out-side the District. Many Districts in the area has seen this number increase significantly especially since the Covid-19 pandemic to above 10%. The average of over 12 north-shore communities recently polled was 9.5%. In North Reading, special education costs account for 22% of all net school spending costs, which is also at the state average of 22%.

Academic Year	Total Oct. 1 In-District Enrollment	# of Students on IEP's	% of Students on IEP's	% of Students Statewide on IEP's	# of Students Out of District
2008-09	2,792	428	15.1%	17.1%	34
2009-10	2,735	426	15.3%	17.0%	42
2010-11	2,675	435	16.0%	17.0%	36
2011-12	2,636	438	16.4%	17.0%	37
2012-13	2,606	445	17.2%	17.0%	34
2013-14	2,612	479	18.0%	17.0%	39
2014-15	2,560	465	17.7%	17.1%	33
2015-16	2,532	457	17.2%	17.2%	30
2016-17	2,499	439	17.9%	17.4%	34
2017-18	2,493	450	18.9%	17.7%	36
2018-19	2,398	477	19.4%	18.1%	34
2019-20	2,397	441	18.2%	18.4%	32
2020-21	2,309	422	18.1%	18.2%	29
2021-22	2,321	416	18.8%	18.9%	28
2022-23	2,354	425	19.1%	19.4%	32
2023-24	2,317	433	18.4%	20.2%	37
2024-25 Projected	2,377	445	18.7%	20.5%	40

Operational Building and Fixed Costs

The district ensures the operating budget includes the operational costs needed to adequately maintain the all four school campuses. The District has identified since FY 2024 more funds to account for these costs. Below is a breakdown of the operational maintenance costs the district has reallocated to adequately maintain all schools. In recent years, these costs have stabilized, as the District has been able to control increases in its operational costs and implement energy efficient measures including LED lighting fixtures and modulating its energy management heating and cooling systems.

EXECUTIVE SUMMARY

Description of Service	Increased Amount
Energy Management Contract	\$10,000
Landscaping Services / Athletic Field Grass Maintenance	\$25,000
Plumbing Services	\$16,000
Boiler Maintenance Services	\$15,000
Security Camera Maintenance	\$15,000
Waste Water Treatment Plant Operations	\$200,000
Elevator Inspections and Services	\$24,000
HVAC Maintenance Services	\$75,000
Increased snow removal outside contractor costs	\$50,000
Total	\$430,000

The chart below illustrates the increase in building operational costs the district has experienced to maintain the four campuses depicted in the table above. The district believes it is critical to take the proper steps to ensure that appropriate preventative maintenance measures are in place. Funds allocated to the maintenance of buildings and grounds have more than doubled since FY 2014 as shown in the graph below. However, in recent years beginning in FY 20 these costs have leveled out as you can see when looking the below chart indicating current funding levels are now adequate to maintain all four campuses.

The district has also experienced a significant increase in its utility costs since FY 2014, driven by an increase in electricity costs and the demands of the four school campuses. The district's utility costs have increased significantly in recent years, accounting for a larger portion of the school budget. Over the past two fiscal years, funds have also begun to level out indicating the District has been able to better control new increases in operational costs,

EXECUTIVE SUMMARY

by taking on energy efficient measures including retrofitting all fixtures with new LED lights in all buildings.

End of Covid-19 Federal Relief Grants (ESSER)

The Covid-19 pandemic changed significantly the needs and priorities of the School District and added significant new costs to address the public health, safety, technology, mental health and learning loss needs. Many new positions were added with covid-19 federal grants and they include the following: School Adjustment Counselors, Digital Learning Technician, and a Floater School Nurse as depicted in the chart below. These positions have been all or partially funded from Covid-19 federal grant since FY' 21 and the District anticipates the need for these positions in fiscal year 2025. The FY' 25 budget reflects these positions being reallocated to the operating budget to ensure their continuation as part of the District's educational program. They have become an integral part of district's academic process.

School /Dept.	Covid-19 Related Positions Carry-Over	Amount	Funding Source
Middle / High	1.0 FTE School Adjustment Counselor	60,000	ESSER III Carry-Over
Elementary	1.0 FTE School Adjustment Counselor	60,000	ESSER III Carry-Over
District	1.0 FTE Digital Learning Technicians	50,000	ESSER III Carry-Over
District	1.0 Floater School Nurse	43,000	ESSER III Carry-Over
Total	4.0 FTE	213,000	

Enrollment Driven and Special Program Needs

The enrollment at the elementary level is anticipated to increase next school year by 73 students from 1,156 to 1,229. The majority of this increase is in grade 5 leading to the need to increase staffing. Below are the new positions being proposed next school year to account for the increase in enrollment and to maintain class sizes within recommended guidelines of 18 to 22 students at the elementary level and meet the demand of specialist sections and offerings at each school.

EXECUTIVE SUMMARY

School /Dept.	Enrollment	Amount	NEED
Elementary	1.0 FTE Grade Level Teacher	78,176	Enrollment
Batchelder School	0.50 FTE Kindergarten Teacher	39,088	Enrollment
Elementary	0.50 FTE Music, Art, PE/Health	44,777	Enrollment
Hood School	0.5 FTE Special Education Teacher	37,945	Enrollment
Total	2.5 FTE	199,986	

Strategic Plan “NRPS 2025/2030” Initiatives

The FY’ 25 preliminary budget request includes the additional of 5.6 FTE new positions guided by the District’s strategic plan for continuous academic achievement. The new positions reflected in the recommended budget include:

The new positions reflected in the recommended budget include:

School /Dept.	NRPS: 2025 Needs	Amount	NRPS 2025 Strategy
Elementary	0.6 FTE School Adjustment Counselor	52,635	Student Support / Equity
District	1.0 FTE Math Coach	78,176	Teaching & Learning
District	1.0 FTE Literacy Coach	78,176	Teaching & Learning
MS / Elementary	2.0 FTE Academic Interventionist	156,352	Teaching & Learning / Support
District	1.0 FTE Humanities Coordinator	111,550	Teaching & Learning
Total	5.6 FTE	\$476,889	

In Year 5 of the strategic budget vision, the proposal as presented would result in an expenditure of \$476,889 which accounts for a 1.3% increase to the budget proposal.

The 0.6 FTE School Adjustment Counselors at the elementary level will allow for a designated adjustment counselor at each Elementary School. Currently, there is a designated adjustment counselor at the Batchelder Elementary School and a shared adjustment counselor at the Hood and Little Elementary Schools. The elementary schools will continue to work towards implementing a multi-tiered system of supports known as MTSS in September 2024. In addition to targeting reading, the elementary principals will also continue the work associated with social emotional and behavioral interventions as part of MTSS. Additional counselors will be instrumental in addressing student mental health needs and wellness. The role of School Adjustment Counselor is an extremely impactful one at the elementary level. This position allows not only for responsive services but is key in developing programs that are proactive rather than reactive. These positions are essential in addressing the social emotional needs of all students, which continues to be heightened due to the impact of the Covid-19 pandemic.

EXECUTIVE SUMMARY

The 1.0 FTE Math Coach through trusting relationships and collaboration with individuals, teams, and administration, the coach will support the planning, implementation, and assessment of effective mathematics instruction across K-8 district schools.

The 1.0 FTE Literacy Coach supports teachers and administrators in designing and delivering literacy instruction that is consistently ambitious and strengthens all students' ability to develop foundational reading and writing skills to engage in content as literate and critical thinkers across K-8 schools. Both coaching positions will design and facilitate job-embedded professional learning as well as school-wide/district-based professional development. They will also provide coaching and consultation for educators while modeling effective research-based instructional strategies.

The 2.0 FTE Academic Interventionists are professional teaching positions that are an enhancement over the current part-time 15 hour per week tutors that exist at each elementary school. This would allow for one full-time Academic Interventionist that would be shared between all 3 elementary schools, as well as, a part-time 20-hour per week position at the middle school. The addition of the Academic Interventionist professional position at the elementary schools and Middle School will help provide and support a more progressive early intervention approach with students at all levels but in-particular in grades 1-2 with a focus on math. The addition of the Academic Interventionist will help provide support for students in grades 6-8 with a focus on literacy.

The 1.0 FTE Humanities Coordinator is an administrative position that would assist school principals in providing support in the following areas: curriculum, instruction, assessment, administration, and supervision and evaluation. The Coordinators would also work closely with the Stem Coordinator added last year and the curriculum teacher-leaders mainly at the secondary level and the Assistant Superintendent of Teaching and Learning to meet the NRPS 2025 goals in related areas. This position would assist in the seeking, writing and applying for applicable grants as they become available.

NRPS 2025 & Staffing Needs Continued

The School Department's strategic plan and other school committee goals identify several other positions that are not reflected in the 9% preliminary budget proposal given the fiscal constraints at this time. These positions, totaling \$402,704 represent 4.5 FTE full time equivalents (FTEs) as shown in the table below:

School / Dept.	NRPS 2030 Positions Not Included in Budget	Amount	NRPS 2030 Strategy
District	Administrative Position Upgrades	50,000	Teaching & Learning
District	1.0 FTE Educational Data Coach	78,176	Teaching & Learning
Elementary	2.0 FTE Academic Interventionist	156,352	Teaching & Learning
District	0.50 FTE Administrative Assistant Restoration	40,000	Operational Restoration
District	1.0 FTE Digital Learning Specialists	78,176	Teaching & Learn. Restoration
	4.5 FTE	402,704	

EXECUTIVE SUMMARY

These staffing needs would add an additional \$402,704 to the budget request, or an additional 1.1%. The Administration has recommended the positions that it believes would have a significant impact on student learning, while recognizing the fiscal environment and budget challenges the community faces in FY 2025.

Budget Priorities

Below is a list of key budget priorities that the Administration and the School Committee focused on in the development of the FY 2025 budget.

- Approve a Fiscal Year 2025 (FY25) budget adequately meets district requirements for optimum student achievement in alignment with NRPS 2025;
- Continue to explore opportunities to reduce operational costs including energy savings by pursuing (solar power, boiler upgrades, WWTP efficiencies, energy management modulation, etc.);
- Support the development of the plan to reduce the Kindergarten fees leading toward the eventual goal of providing free Full Day Kindergarten and will explore the next steps to increase access to Universal Free Day Pre-K;
- Develop strategies to preserve positions and supports that were implemented in part with ESSER funding while also continuing to move the district forward in alignment with NRPS 2025;
- Continue to collaborate with representatives of the Select Board, Finance Committee, the Town Administrator, and the town's Director of Finance.

The “Modified Level Services” budget represents the funding required to maintain the same level of services and continues to focus on the strategic objectives in “NRPS 2025.”

It is important to note that the North Reading Public Schools experienced moderate budget increases in the past. This has required the use of several one-time funds and revenue sources to maintain level services. This has made it challenging to continue to maintain level services and achieve the educational objectives of the district. The operating budget history charted below illustrates the budget increases over the last several fiscal years during these challenging economic times.

Fiscal Year	Budget Amount	% Budget Increase
FY 2010	\$22,802,875	1.90%
FY 2011	\$23,143,886	1.50%
FY 2012	\$24,021,751	3.79%
FY 2013	\$25,169,692	4.78%
FY 2014	\$25,648,524	1.90%
FY 2015	\$26,764,015	4.40%
FY 2016	\$27,495,074	2.73%
FY 2017	\$28,546,142	3.80%
FY 2018	\$29,633,545	3.80%
FY 2019	\$30,746,047	3.80%

EXECUTIVE SUMMARY

FY 2020	\$31,757,773	3.29%
FY 2021	\$32,593,216	2.60%
FY 2022	\$34,276,665	5.20%
FY 2023	\$35,709,330	4.20%
FY 2024	\$37,319,595	4.50%
FY 2025 Proposed	\$40,679,524	9.00%

Budget Recommendation

The Administration recommends support of the FY 2025 preliminary budget. This budget will allow the district to make progress toward meeting its educational objectives. This recommendation is significantly higher than previous year's requests due to key budget drivers namely: higher than typically contractual salary obligations, loss of federal covid-19 relief funding, increasing elementary enrollment and the rising costs of special education both in and out-district needs. The FY 2025 preliminary budget will allow the District to meet all contractual obligations with employees and employee unions, as well as address fixed operational cost increases to successfully operate and maintain all four-school campuses. It continues to addresses the need to maintain educationally sound class sizes at all grades, but particularly in the primary grades, at a level that does not exceed twenty-two students. The budget also meets the technology, health, and safety needs of the district heightened by the Covid-19 pandemic by maintaining current nursing, technology and counseling staffing levels, as well as increasing counseling and academic intervention support positions to address the mental health of all students and address any areas of learning loss. It also ensures continuation of the 1:1 student device ratio and the needed instructional technology and classroom supplies to all schools and classrooms. In addition, the budget continues to focus on making data driven informed decisions and aligning curriculum across all levels for instructional staff with the addition district wide coaching and coordinator positions.

EXECUTIVE SUMMARY

Adoption of the preliminary budget, will (1) provide the resources needed to advance the school districts educational program; (2) enhance the mental health and academic support systems necessary for all students; (3) provide a comprehension educational program for all students; and (4) uphold the vision and mission of the North Reading Public Schools.

BUDGET PROCESS AND GOALS

The annual budget is the financial framework of the educational program needs of the North Reading School Department. The budget is more than just a financial instrument and requires an orderly and cooperative effort on the part of the School Committee, the staff, and the community to ensure sound fiscal practices for achieving the educational goals and objectives of the North Reading Public Schools.

A major portion of the income for the operation of the public schools is derived from local property taxes, and the North Reading School Committee will attempt to protect the valid interest of the taxpayers. However, the first priority in the development of our annual budget is the educational welfare of the children in our schools.

It is the intention of this School Committee to work closely with the Finance Planning Team as early as possible in the budget process, to ensure the final town budget submitted at Town Meeting reflects funds needed to comply with state educational requirements and brings education in North Reading to a higher level of excellence.

As a trustee of local, state, and federal funds allocated for use in public education, the North Reading School Committee will fulfill its responsibility to see that these funds are used wisely for the purposes to which they are allocated.

Public school budgeting is regulated and controlled by federal and state legislation, state regulations, and local School Committee requirements. An operating budget representing the School Committee's best judgment of needs for the North Reading School System will be prepared and presented to the Town Administrator in a timely fashion.

The Superintendent will serve as budget officer and will have overall responsibility for budget preparation, including the construction of and adherence to, a budget calendar conforming to the schedule set forth in the Town Charter. However, he may delegate portions of this responsibility to members of his staff as he deems appropriate. The three areas of responsibility for the Superintendent as budget officer will be budget preparation, budget presentation, and budget administration.

The operating budget consists of two components: personnel services and expenses. Personnel services (salaries) account for approximately 83.0% of the FY 2025 recommended budget. Actual class organization, staffing and enrollment data is gathered on October 1 of each year. Enrollment projections are generated based on the current year counts and historical data and trends. (Charts detailing trends in both enrollment and the budget are included in this analysis section of the budget book). In early October, budget leaders receive the enrollment projections and detailed historical expense data specific to their programs along with the School Committees' budget goals. During late November and December, central office administrators conduct a series of meetings with Directors and School Principals to review and discuss budget requests and potential cost saving measures. The Superintendent, using input from the administrative team, determines the appropriate allocation of resources across the schools. The Superintendent presents the preliminary

BUDGET PROCESS AND GOALS

budget recommendation to the School Committee in March. The School Committee, working through its subcommittees, reviews the budget for the elementary, middle school and high school programs during late March. In early April, the School Committee holds public meetings to report on the subcommittee meetings as well as to hear public input. The school committee will vote on the FY 2025 budget no later than May 1, 2024.

FY 2025 School Committee Budget Goals

1. Approve a Fiscal Year 2025 (FY25) budget that reflects support of the district's strategic plan, NRPS 2025, and other strategic initiatives;
2. Continue to explore new opportunities to reduce expenses associated with energy costs (e.g. solar power)
3. Support the development of the plan to reduce the Kindergarten fees leading toward the eventual goal of providing free Full Day Kindergarten and will explore the next steps to increase access to Universal Free Day Pre-K;
4. Continue to review the current structure of user fees for extra-curricular and athletic activities and its impact on families;
5. Develop strategies to preserve positions and supports that were implemented in part with ESSER funding while also continuing to move the district forward in alignment with NRPS 2025;
6. Review all aspects of school transportation including the bus fees, contracts and rates, the process for route design, and emerging topics such as the electric school bus pilot. The Superintendent will prepare a presentation on this topic for the committee;
7. Continue to collaborate with representatives of the Select Board, Finance Committee, the Town Administrator, and the town's Director of Finance to discuss potential changes to the budget development calendar as a goal with having a revenue guideline budget amount earlier in the process.

BUDGET TIMELINE

August 28, 2023	Fiscal Year 2025 Budget Calendar and Budget Goals presentation and vote
October 23, 2023	Large Capital Improvement Plan presentation to School Committee
October 26, 2023	Principals and Directors given budget request sheets
November 13, 2023	School Committee vote on FY 25 Large Capital projects
November 27, 2023	Five- and Ten-Year Enrollment projections completed
December 8, 2023	Budget requests due to the Assistant Superintendent of Finance and Operations
February 16, 2024	Release preliminary budget books to School Committee
March 11, 2024	Present preliminary budget to School Committee
March 28, 2024	Preliminary school budget webinar (12:00 p.m.)
April 8, 2024	FY 25 Budget Workshop # 1 (5:00 p.m.)
April 8, 2024	Public Hearing on FY 25 budget
April 22, 2024	FY 25 Budget Workshop # 2 (5:00 p.m.)
April 22, 2024	School Committee votes recommended budget
May 8, 2024	Present recommended budget to Finance Committee
May 13, 2024	Select board vote town meeting warrant
June 10, 2024	Town Meeting votes budget

The personnel services component of the budget includes salaries for all staff. Full time equivalency (FTE) is tracked for all regular employees but not for on-call or temporary employees such as substitute teachers or coaches.

It is important to note that the definition of a 1.0 FTE varies with positions as defined in collective bargaining agreements. In order to calculate the personnel services budget request, staffing needs must first be calculated. Professional staffing needs are determined based on enrollment projections and professional staffing guidelines. Unless otherwise known, it is assumed that all current staff will be returning to work for the next school year. Using the current year staff as a base, the personnel service budget request is generated as follows:

1. All employees not at the maximum step are advanced one step.
2. Collective bargaining increases are applied to the salary table. During those years when a contract is in negotiation, a projected increase is applied to the salary table, when appropriate. By contract, teachers and professional support staff advance to a higher educational level during the following school year after providing satisfactory evidence that they have met all degree requirements. Historically, there have been twelve to fifteen teachers who have met this criteria. The cost impact is calculated and is included in the teacher salary budget request.
3. Longevity stipends are added and adjusted for those employees who qualify.
4. Staff changes based on enrollment are calculated. For teachers and professional support staff, these positions are budgeted at an average salary, typically Masters Step 6.
5. Salaries for staff known to be retiring or taking a leave of absence are deleted and replaced with the average salary noted above.
6. Salaries for substitute teachers, coaches, extra-curricular club advisors, professional development workshops, stipends, etc., are determined.
7. A turnover reduction is determined. The turnover reduction takes into account the anticipated retirements, resignations and/or leaves of absence, which historically occur after the budget is approved, but prior to the start of the school year. In the rare event that no unanticipated turnover is realized, the school department's personnel service budget request would be underfunded.

It is helpful to keep in mind that North Reading's teachers' salary scale, like that of all public schools in the Commonwealth and in the country, is based on a step system where salary increases are based on years of service and educational attainment beyond the bachelor's degree. The FY24 teachers' salary scale and a chart detailing the headcount of current staff by lane and step are included in this budget book. The FY25 salary scale is also included.

The FY25 personnel service operating budget recommendation funds a variety of positions that are funded through grant and revolving accounts. Based on current staffing and projected increases, this represents 420 full time and part-time employees covered in the

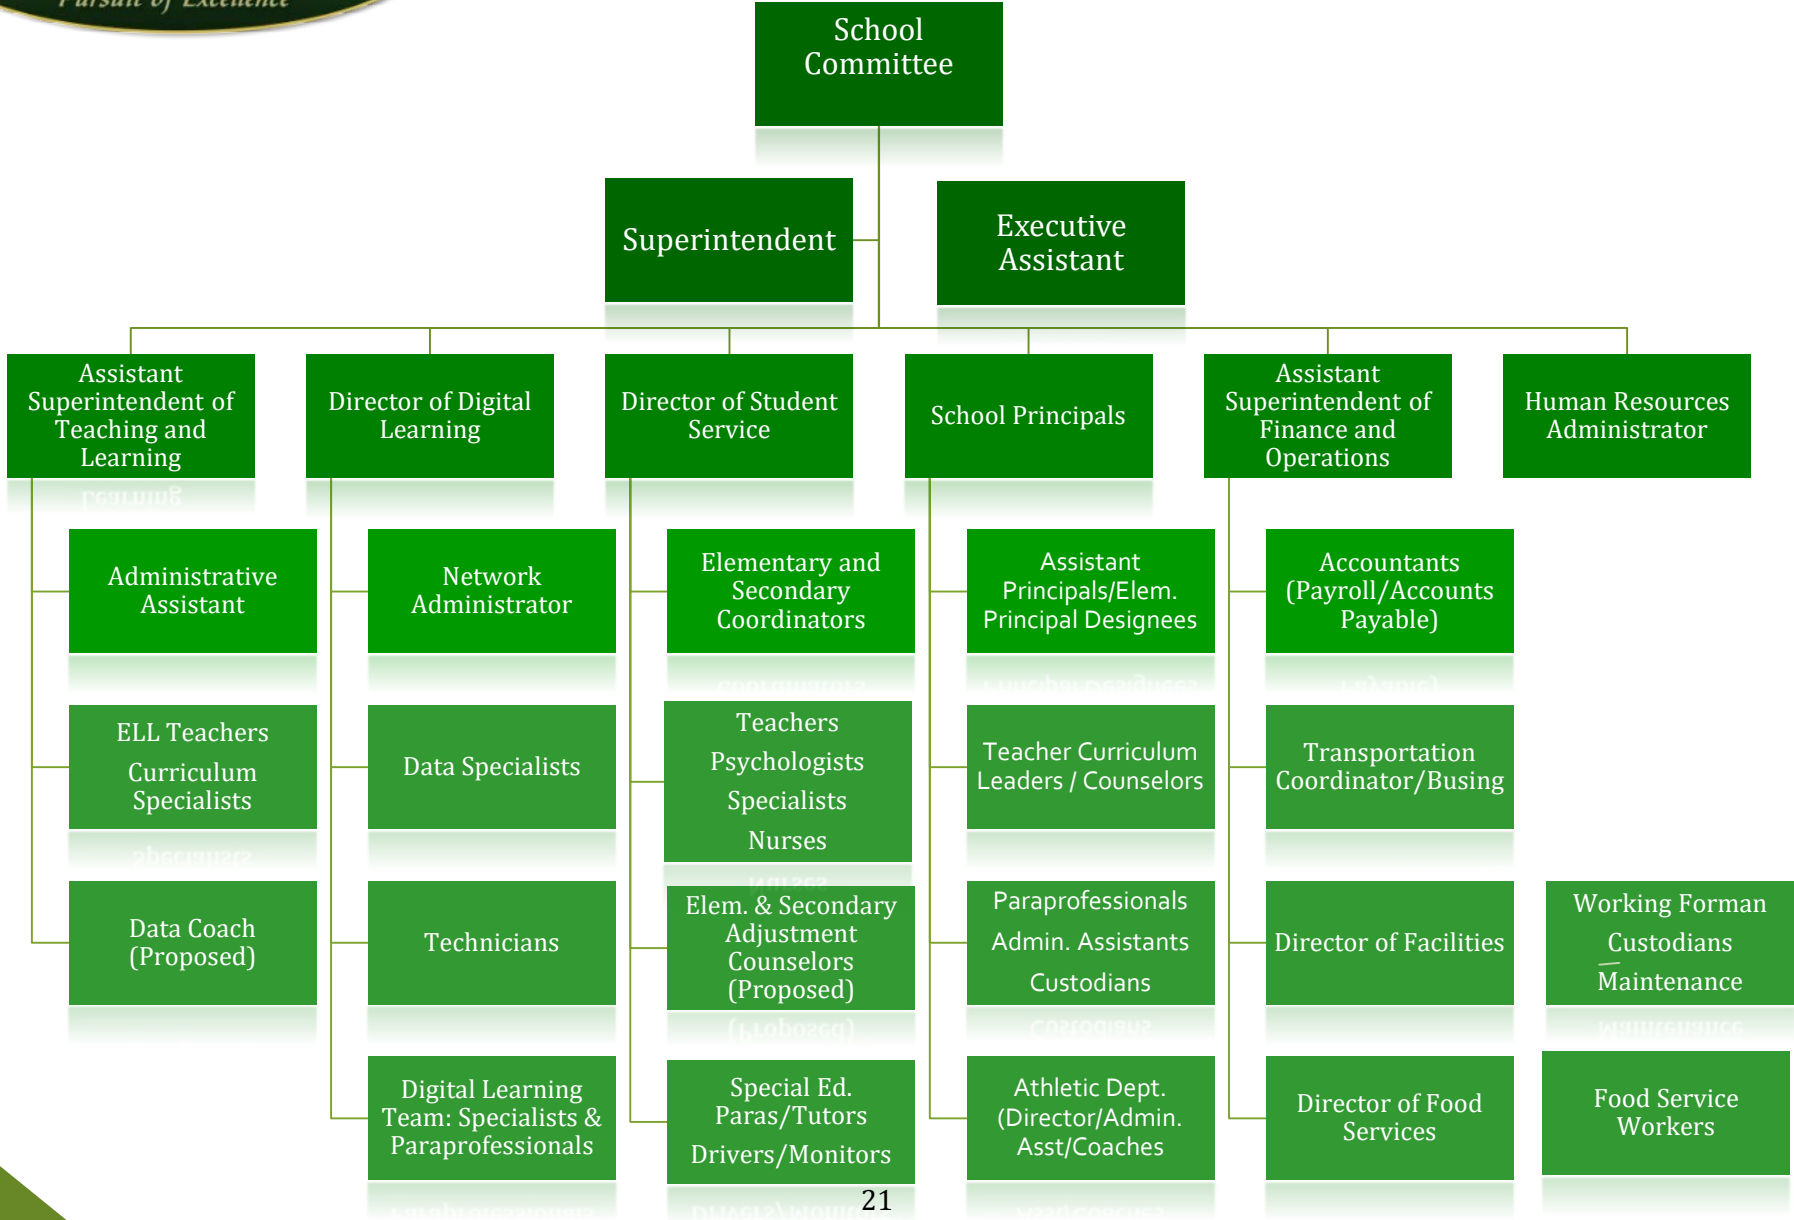

BUILDING THE BUDGET

operating budget. On-call and temporary employees are included in the dollar amount but not in the total FTE or headcount.

Principals and budget leaders build their expense budgets from the bottom up. This means no automatic increases are given or assumed. Each Budget leader must provide detailed support for their budget requests. In addition to the instructional expense budgets, adjustments are made based on information known at the time for special education out-of-district tuitions, special education transportation, regular transportation and utilities budget. Utilities budgets are built based on projected usage over a three year average and adjustments are made based on anticipated market fluctuations.

THE PROGRESSION RATE METHOD

The basic assumption of the progression rate method for predicting school enrollments is that what has happened in the past, will continue to happen in the future; that is, given the number of births, the net effect of all other influences on enrollment will remain proportionately the same. The basic technique requires calculating the ratio of the number of children in one grade in one year compared to the number of children who “progress” the year and enroll in the next grade the following year. Fluctuations in such data from year to year create a pattern from which an average progression rate can be calculated to project an enrollment. Percentages are calculated from the historical enrollment data to determine a reliable percentage of increase or decrease in enrollment between any two grades. For example, if 100 students enrolled in Grade 1 in 2022-23, increased to 104 students in Grade 2 in 2023-24, the percentage of progression would have been 104% or a ratio of 1.04. Such ratios are calculated between each pair of grades or years in school over several years.

The data used to calculate this information includes birth records, census information, housing developments, real-estate market data and area private school enrollments. We find that we can predict the upcoming year’s totals typically within a 1% variance.

A progression rate method was calculated using a 3-year, 5-year, and 10-year historical database. Because North Reading is inward migration has begun to show evidence of increasing over the past three years, the three-year calculation is generally considered more reliable.

Enrollment Report

The enrollment report includes actual student enrollment from the 1949-50 School Year through 10/01/2023, and a projection of enrollment through June 30, 2035. As depicted in the chart below. North Reading’s total student enrollment has been cyclical. In the early fifties’ enrollment grew quickly from 900 to 1,841 students. The 1960’s saw the numbers rise to 3,217. In the 1970’s enrollment grew as high as 3,461. Then in the 1980’s enrollment decreased to 1,926 only to rise again during the 1990’s, peaking at 2,319. The period since then has seen a growth back to 2,812 in 2008 with a steady decline since then. Currently, student enrollment stands at 2,317.

ENROLLMENT PROJECTIONS

Historical enrollment over the last ten years has remained relatively stable as the below chart indicates. Enrollment did peak in fiscal year 2008 at 2,812 students and has slowly declined over the last several years by 243 students from 2,560 students in fiscal year 2015 to a current total in fiscal year 2024 of 2,317 students.

ENROLLMENT PROJECTIONS

There are two factors at work, which will have the greatest impact on future enrollments:

1. A steady number of births to North Reading residents and, 2. New in-migration of families with school age children. North Reading has experienced between 132 and 170 births annually over the last several years as shown in the chart below, a range that is expected to continue over the next 6 to 7 years, this will allow North Reading to continue to average approximately, 154 births per year.

Birth Time Period	# Births
Sept. 1, 2013-Aug. 31, 2014 (FY'20)	165
Sept. 1, 2014-Aug. 31, 2015 (FY' 21)	165
Sept. 1, 2015-Aug. 31, 2016 (FY' 22)	151
Sept. 1, 2016-Aug. 31, 2017 (FY' 23)	171
Sept. 1, 2017-Aug. 31, 2018 (FY' 24)	132
Sept. 1, 2018-Aug. 31, 2019 (FY' 25) Next Year's Kindergarten Class	162
Sept. 1, 2019-Aug. 31, 2020 (FY' 26)	170
Sept. 1, 2020-Aug. 31, 2021 (FY' 27)	142
Sept. 1, 2021-Aug. 31, 2022 (FY' 28)	152
Sept. 1, 2022-Aug. 31, 2023 (FY' 29)	157
Average	154

North Reading, over the past five years, has registered on average about 120 kindergarteners for every 100 births (five years previous), a relationship which has increased steadily over the past several years from an average of about 118. This fall, the ratio was much greater than the average at 134 kindergarteners for every 100 births, proving that it is difficult to predict the trend of in and out migration of families with school age children. Proposed or planned residential development and/or turnover of homes in North Reading can influence the cohort numbers. There are no major housing developments plans that would bring a surge of households with school age children to North Reading, the future looks like the District will continue registering between 118-122 kindergartners per 100 births. The report attempts to adjust the projected kindergarten enrollments to reflect typical incoming enrollments and to include a prediction of an increase in families with school age children based on market trends. Relying solely on birth rates five years earlier is not always accurate. Grade 1 is expected to remain between 3% and 5% larger than the previous year's Kindergarten class, which is the ten-year average.

The high school had typically experienced a consistent loss of between 12-14% of students enrolling in grade 9 at the end of Grade 8. However, that trend in the years following the new Middle/High School when it only experienced a loss between 4-7%. However recent trends show this trend has return to 12-14%. This past fall that loss was slightly higher at 15%, which the District believes can be mostly contributed to several families opting to educate their children remotely due to the COVID-19 pandemic. Over the next three years, K-5 enrollments are forecasted to increase significantly by 81 students over the three-year period. Grades 6-8 enrollment is predicted remain stable with a slight decrease of 3 students as the smaller class sizes make their way from the elementary schools to the middle school. The high school enrollment will increase by only 6 students over the next three years and will begin to approach 700 students in the outer years at the high school.

ENROLLMENT PROJECTIONS

After that point, over the next five-year period projections show district wide enrollment will begin to steadily increase again from approximately 2,400 students to 2,500 students in grades Pre-kindergarten through grade 12, with about 1,250 at the elementary level, 600 at the Middle School, and 650 at the high school. The projections indicate that as the real estate market continues to increase, it will continue to bring additional new families to North Reading, if the real estate market slows down or is impacted by an economic recession it would have an impact of these projections in the outer years.

History of Enrollment Projections vs. Actuals

You may wonder how enrollments projections have compared to our actual enrollment over the last several years. The chart below indicates that our historical projections using this method have typically been within 1% of actual enrollment. The variance this past year in October 2023 was 1.4%.

FISCAL YEAR	2018	2019	2020	2021	2022	2023	2024
PROJECTION	2,453	2,444	2,392	2,357	2,299	2,356	2,351
ACTUAL	2,493	2,397	2,397	2,309	2,321	2,354	2,317
CHANGE (Actual-Projection)	40	-47	5	-48	22	-2	-34

Districtwide enrollment depicted in the graph below is expected to increase over the next five to ten years. In fiscal year, 2029 highlighted below enrollment could reach 2,451 students and could exceeding 2,500 students by 2031 again. However, one should realize that it is very likely these patterns will not last as long as ten years. Enrollment projections are most accurate in the early year and are less reliable more than three and five years into the future. The economy, real-estate market, and timeline of development in town will all have an impact on the projections in the outer years.

ENROLLMENT PROJECTIONS

Evidence suggest that the real estate market continues to improve. During the period of 2013-2018, many communities in the region sold only about 60-80% as many homes as in 2008-2013. In the case of North Reading, recent trends show an increase in the number of single-family homes sold in recent years. During the period of 2013-15, an average of 125 homes were sold. However, sales have rebounded to 159 homes sold in 2016, 161 in 2017, and 162 in 2018. Most recently, North Reading sold 201 homes in 2019, 221 in 2020 and are on pace of exceed 276 homes sold in 2021. This is a significant increase than the previous three-year period. This trend indicates an increase in new families with school age children in North Reading and we have begun to see this trend influence the enrollment projections. As single-family home prices, continue to reach a ten-year high, more “Baby Boomers” who have been waiting to downsize, have been encouraged to place their homes on the market. Evidence suggests that young families are moving into North Reading. As additional families move in, previous forecasted enrollment declines have changed and enrollment projections is now indicating an increase. The increase could be even more significantly, in the outer years if the real estate, market continues to improve and recent developments planned in town come on-line. There is also planned developments in North Reading including single-family home developments and age 55 plus affordable housing units that are anticipated to come on-line over the next two to three years, which will have an impact of these projections on the outer years.

Projected Enrollment in Grade Combinations						
Year	PK-5	K-5	6-8	9-12	K-12	PK -12
2023-24 Actual	1,156	1,111	543	618	2,272	2,317
2024-25 Projection	1,229	1,179	497	651	2,327	2,377
2025-26 Projection	1,248	1,198	535	629	2,362	2,412
2027-28 Projection	1,244	1,192	540	624	2,356	2,408
2026-27 Projection	1,256	1,204	583	598	2,385	2,437
2028-29 Projection	1,246	1,194	595	610	2,399	2,451
2029-30 Projection	1,259	1,207	591	633	2,431	2,483
2030-31 Projection	1,249	1,196	616	635	2,447	2,500
2031-32 Projection	1,229	1,175	623	695	2,493	2,547
2032-33 Projection	1,246	1,192	620	683	2,495	2,549
2033-34 Projection	1,253	1,199	607	700	2,506	2,560

The above chart shows projected in grade combinations over the next ten years. All projections are most reliable in the first five years and less reliable in years six through ten. Over the next three years, K-5 enrollments are forecasted to increase by 81 students. Most of the increase can be contributed to higher anticipated kindergarten classes due to higher birth rates and higher in-migration of families with school age children, these larger cohorts are expected to move through the elementary grades. Grades 6-8 is expected to decrease by 3 students over the next three years averaging about 530 students before experiencing another increase in enrollment. The high school enrollment is expected to increase by 6 students over the next three years, before leveling out at about 670 students on average. Moving forward these projections show a moderate increase in enrollment.

ENROLLMENT PROJECTIONS

School Year	K	1.0	2.0	3.0	4.0	5.0	Total K-5
2023-24 Actual	177	209	184	190	203	148	1,111
2024-25 Projection	199	184	210	185	194	207	1,179
2025-26 Projection	209	207	185	211	189	197	1,198
2026-27 Projection	174	217	208	186	215	192	1,192
2027-28 Projection	187	181	218	209	190	219	1,204
2028-29 Projection	193	194	182	219	213	193	1,194

Elementary enrollment (K-5), next school year is projected to increase by 68 student's system-wide. As you can see from the table below, Kindergarten enrollment is anticipated to increase by 22 students, which can be contributed to a higher birth rate statistic from five years earlier but kindergarten enrollment can be very difficult to predict. Grade 5 enrollment will increase significantly, as that larger cohort moves from grade 4 to grade 5. Given the increase in Kindergarten enrollment and grade 5 enrollment additional staffing is anticipated due to enrollment next year.

ENROLLMENT PROJECTIONS

School Year	6	7	8	Total 6-8
2023-24 Actual	187	165	191	543
2024-25 Projection	145	185	167	497
2025-26 Projection	203	144	188	535
2026-27 Projection	193	201	146	540
2027-28 Projection	188	191	204	583
2028-29 Projection	215	186	194	595

Middle School enrollment is expected to decrease by 46 students next school year. Over the next three years it is anticipated that grades 6-8 will decrease by (3) total students. As you can see by the above chart, long-term enrollment projections indicate the middle school enrollment experience a moderate increase and level out at about 600 students. No additional staffing should be necessary at the middle school to address changes in enrollment.

2026-27 Projection	165	147	164	148	0	624
2027-28 Projection	128	165	143	162	0	598
2028-29 Projection	179	128	161	142	0	610

High School enrollment is expected to experience an increase in enrollment next year by 33 students and is then expected to increase enrollment and level off at about 625 students over the next five years. No additional staffing should be necessary at the high school to address changes in enrollment. The opening of the new building has contributed to a higher progression ratio of 8th grade students moving into ninth grade, which has averaged 92% since the opening of the new middle/high school and is now returning to historical ratios of 87%.

ENROLLMENT PROJECTIONS

As the projections indicate above, the biggest enrollment shifts will take place at the Elementary over the next five years. The elementary level will see a significant increase in enrollment due to smaller classes working their way to the Middle School and higher birth rates resulting in Kindergarten students. The middle and high school will experience stable enrollment over the next three years before experiencing an increase as the real estate market and developments in the community bring a return of in-migration of school age children to North Reading.

Section 5

Revenue Sources & Budget Subsidies

Several outside funding sources are used to offset the cost of the operating budget. These include federal and state grants, revolving accounts and fees. Grant funds are used to offset the salary of professional or support staff, either partially or wholly and also to offset program expenses. Revolving accounts are used to offset costs, either personnel services and/or expenses directly associated with the program, while fees are assessed for a specific purpose.

Federal and State Grants

Annually, when building the budget, if there is no available information indicating federal and state grant changes, the assumption is made that current year grant funding will remain at the same level for the following year. Beginning in FY03, all entitlement grants were folded into the No Child Left Behind legislation which has much more restrictive criteria as to how funds can be spent.

Title IIA Improving Teacher Quality

This is one of the grants created by the No Child Left Behind Legislation. In FY24, the funds were used to provide professional development opportunities, and funds payments to staff mentors for working with North Reading's new teachers. The FY25 budget assumes the grant will continue to fund the mentor program and professional development opportunities.

Federal Special Education IDEA Entitlement

This federal entitlement grant is used to fund special education paraprofessional support staff, student support services and transportation services to provide transportation for students in our special education program. In FY24, this grant funded 4.5 FTE paraprofessional positions, which provided a salary budget offset of \$115,000. It also funded \$325,000 of special education transportation services and an additional \$100,000 of direct student support services. The FY25 budget assumes this grant will fund the same positions, transportation and student support services.

Title 1

This is also a federal entitlement grant, which has been used to fund consultant and tutoring services to students requiring additional support at our Title 1 schools, the Hood, Little and Middle Schools. The FY25 budget assumes the grant will fund these same services.

Early Childhood – Special Education Allocation

This grant is a federal entitlement grant that funds .60 FTE of preschool paraprofessional position providing a \$16,000 salary budget offset. The FY25 budget assumes the grant will fund the same position.

REVENUE & FEES

COVID-19 Emergency Relief Grants

The District received several additional federal grants since FY21, as highlighted below. FY24 marked the last year these emergency relief funds are available. They have helped fund positions which included: Floater School Nurse, School Adjustment Counselors, Intervention Tutors, and Digital Learning Technicians. These positions in FY25 have been moving into the operating budget request.

Grant Funding Level Comparisons

*FY 2025 budget assumes the same funding level as FY 2024 the exception of the Covid-19 pandemic grants, which are in italics in the chart above.

Revolving Accounts

Facility Rental

Surplus space in the district is used for rental to outside groups and organizations. Surplus space at the Batchelder School, Hood School, and Little School is rented to the Burbank YMCA for their after school program. SEEM Collaborative rents three classrooms at the Hood School. Funds collected are used to purchase needed maintenance supplies and materials across the district to maintain the school buildings. These funds are also used to offset the overhead costs of the programs and to maintain, replace, and refurbish equipment and facilities in space which is rented. This account is

REVENUE & FEES

also used to offset the funds needed for operations and maintenance of the buildings being rented including electrical, plumbing, security surveillance and HVAC services. The FY 25 budget includes a \$75,000 budgeted offset to the maintenance and grounds budget. The School Committee reviews their facility rental fee schedule on an annual basis as part of the budget process.

Food Services

The primary purpose of the program is to offer nutritious meals to all students at all schools every school day. Secondary goals are to raise and maintain student participation (sales) and pay employees fairly, while keeping prices at reasonable levels. The goal of the program is to be financially self-supporting to the extent that revenue supports the cost of all food items and cafeteria salaries. Revenues are generated from student/faculty sales as well as free/reduced federal reimbursements. As of this date, revenue is sufficient to cover food service expenses. Any shortfall in revenues needs to be funded through the school district operating budget. Universal free meals have been extended to all students since FY21 and that trend is expected to continue in FY25. The additional revenue has helped the District invest back into the program with new equipment and fund the additional of a Regional Dietician to assist with menu development and nutrition and specific diet needs from parents.

Transportation

Bus privileges are provided free of charge to the following populations in accordance with state regulations: students in grades K-6 who live more than 2 miles from their school and students whose Individual Education Plan (IEP) include free busing. Students who do not meet these criteria may opt to purchase a bus pass from the district. The revenue generated from the bus user fee is deposited into a revolving account and helps defray the cost for the necessary buses for the optional busing program. The district currently operates 12 regular school buses daily, and collects on average \$255,000 to offset the cost of those buses through the optional busing program. The current user fee is \$425 with a family cap \$700. Contract bus cost rates accessed to the District continue to increase on an annual basis and a large 8% increase will occur in fiscal year 2025. The District also offers two late buses at the Middle School three days a week. The revenue currently accounts for only 32% of the total costs of the regular transportation program, which has decreased considerably in recent years where it used to be closer to 50%.

Athletics/Activities

A user fee of \$400 per athlete for each first sport, \$200 per athlete for the second sport and \$200 for a third sport with a family cap of \$1,300 is collected each season for students to participate in athletics. Revenue generated from user fees and gate receipts are deposited into the athletic revolving account. This revenue currently helps offset the cost of all athletic non-salary expenses including the cost equipment, supplies, game officials and workers, athletic trainers, transportation, ice, pool, tennis rental and other dues and miscellaneous expenses. Currently, revenue collected provides an annual \$300,000 budget subsidy for all athletic expenses. This accounts for about 40% of the total cost to operate the athletic program at the high school.

REVENUE & FEES

A one-time annual fee of \$200 is also assessed per student for a variety of student clubs and activities at the high school and middle school. The revenue generated from the user fee also helps offset the costs of student club advisor stipends, which are paid on a salary schedule as part of the contractual teacher's agreement. All fees collected are generally expended during the fiscal year in which they are assessed. Currently, revenue collected provides an annual \$70,000 budget subsidy for all extra-curricular expenses. This accounts for about 55% of the total cost to operate the extra-curricular activities at the high school and middle school.

Performing Arts

The Performing Arts extra-curricular user fees are as follows: At North Reading High School the first activity is \$200.00, participation in a second activity is \$100, participation in a third performing arts activity is \$50, with a family cap of \$600. At North Reading Middle School the first activity is \$150.00, participation in a second activity is \$75, participation in a third performing arts activity is \$50, with a family cap of \$450. Funds generated from these participation fees are deposited into performing art revolving accounts and directly offset expenses associated with these activities including, advisor stipends, set materials, props, costumes etc. Currently, revenue collected provides an annual \$15,500 budget subsidy for performing arts related expenses.

Below is a summary of the existing school department revolving account on the general ledger, and their FY23 end-of-year balances.

Revolving Account Description	FY 23 Carry Over	FY 24 Estimated Revenue	FY 24 Estimated Expenses	FY 24 Estimated Year End Balance

REVENUE & FEES

Revenue All Sources

North Reading Town Administration and elected officials work closely with the North Reading School Administration and School Committee throughout the budget process to identify the available funds for both Town and School operating budgets. Like many other towns in the area, the majority of North Reading's revenue sources comes from local property taxes. Other sources of revenue include state aid consisting of unrestricted local government aid and Chapter 70 educational aid, as well as local receipts. Local receipts are revenue earned from various fees associated with licenses, permits, fines and meals and excise taxes. Fixed costs, which includes costs for health insurance, retirement, medicare, life insurance, worker's compensation, snow and ice costs and subtracted from the anticipated available revenue to determine the available funds that remain to fund operating budgets. Other revenue that help fund both school and town budget include other subsidies from revenue generated from user fees, tuitions, and federal and state grants as depicted in the table and graph below. The revenue plan breakdown for FY'24 is shown below. At the time of the release of this budget book the FY'25 revenue plan was still unknown.

Revenue Source	FY 22 Budget	FY 23 Budget	FY 24 Budget	Difference	%
Local Taxes	38,479,451	39,659,765	41,235,117	1,575,353	4.0%
State Aid	6,507,231	6,576,164	6,779,672	203,508	3.1%
Local Receipts	2,750,150	2,906,260	3,144,342	238,083	8.2%
Other Financing Sources	1,133,761	1,032,687	1,107,673	74,986	7.3%
Revenue Adj. (One-Time)	95,750	235,000	500,000	265,000	112.8%
Fixed Costs	(14,689,679)	(14,700,546)	(15,447,210)	(746,663)	5.1%

Section 6

Performance & Student Achievement Data

North Reading Public Schools Performance Trends and Analysis

This report compares the student performance data of the North Reading district to students of neighboring and peer districts. Comparative information from Massachusetts Department of Elementary and Secondary Education is referenced throughout this report (<http://profiles.doe.mass.edu>). Where available, data from the 2023-2024 school year is used.

Enrollment

North Reading's total student enrollment has been cyclical. In the early fifties enrollment grew quickly from 900 to 1,841 students. The 1960's saw the numbers rise to 3,217. In the 1970's enrollment grew as high as 3,461. Then in the 1980's enrollment decreased to 1,926 only to rise again during the 1990's, peaking at 2,319. The period since then has seen a growth back up to 2,812 in 2008. Since then enrollment has been on a slow decline for the next decade. Currently, student enrollment stands at 2,317.

PERFORMANCE TRENDS AND ANALYSIS

North Reading's total elementary student enrollment was on a steady decline for over a decade, peaking at 1,437 in FY 2008 and declining until reaching a low point of 1,098 students in FY 2021. This decline can be traced back to the decline in the birth rate and a slow down in the real estate market as a result of the economic recession. However, recent data is showing signs that this trend is changing and enrollment will begin to experience a moderate increase. Currently, elementary student enrollment stands at 1,156 including preschool students, elementary enrollment is expected to increase to 1,229.

North Reading's total Middle School student population peaked in FY 2014 at 682 and began to decline over the next six years, but eventually experience moderate increases in FY 2021 and FY 2022. The North Reading High School student population rose steadily and peaked in FY 2018 at 812 students and has been on a sharp decrease until the first enrollment increase in five years in FY 2023. Enrollment at the secondary level is anticipated to remain stable over the next three years with the Middle School leveling out at about 555 students and the High School at 675 students.

PERFORMANCE TRENDS AND ANALYSIS

As the projections indicate above, the biggest enrollment shifts will take place at the Elementary level over the next five years. The elementary schools will see a significant increase in enrollment due to smaller classes working their way to the Middle School and higher birth rates resulting in Kindergarten students. The middle and high school will experience stable enrollment over the next three years before experiencing an increase as the real estate market and developments in the community bring a return of in-migration of school age children to North Reading.

In the ten-year span between 2003 to 2013, on average, 86% of North Reading 8th graders moved from the middle school to the high school. The new building project has changed this trend in recent years. In October of 2013, when the new high school opened almost 94% of 8th graders chose to attend the high school. Over the past four years from October 2019 to October 2022 the average percent of 8th graders moving on to the high school has been 88%. In the fall of 2022, the percentage of 8th graders enrolling into North Reading high school is 89%.

Finance -Per pupil spending

“Expenditures per Pupil” presents Massachusetts school spending data in a way that is comprehensive, comparable, and transparent to the general public. These calculations show **all** school operating expenditures including those outside the general fund such as grants, private donations, and revolving accounts. They include payments for local resident pupils who are being educated in schools outside of the district, as well as the overall cost per pupil. Data provides detail about how much schools spend in specific functional areas such as teaching, maintenance, and administration.

PERFORMANCE TRENDS AND ANALYSIS

Of these 10 peer communities; North Reading ranks fifth in this grouping in per pupil spending. Historically, North Reading has remained lower than the state average per pupil spending total. From FY 2020 to FY 2022, North Reading has increased per pupil spending by about 15%. During this time, North Reading per pupil expenditures have increased an

District	Total Expenditures	Admin	Instr'l Leadership	Teachers	Other Teaching Services	Professional Development	Instr'l Materials	Guidance & Psychology	Pupil Services	Operations & Maintenance	Benefits & Fixed Costs
Groton-Dunstable	\$19,299.75	3%	8%	35%	10%	1%	1%	3%	9%	7%	20%
Hamilton-Wenham	\$22,092.33	3%	5%	36%	8%	2%	3%	3%	10%	9%	14%
Hanover	\$16,248.30	4%	7%	44%	7%	1%	2%	3%	12%	6%	9%
Lynnfield	\$17,324.81	4%	6%	42%	10%	1%	1%	3%	10%	3%	15%
Masconomet	\$23,050.89	4%	6%	37%	5%	0%	3%	4%	11%	8%	15%
Medway	\$18,537.61	3%	6%	35%	6%	0%	3%	4%	9%	10%	18%
North Reading	\$19,942.06	3%	5%	39%	8%	1%	2%	3%	9%	8%	17%
Pentucket	\$18,771.00	3%	6%	36%	8%	0%	2%	3%	9%	8%	17%
Reading	\$17,643.00	3%	7%	40%	8%	1%	4%	3%	7%	8%	14%
Wilmington	\$22,987.85	3%	5%	36%	6%	1%	1%	4%	9%	9%	18%

average of 6.5% lower than the state's average. In FY 2022, North Reading was just above the state average in per pupil spending, \$19,942 compared to the state average of \$19,707.

North Reading per pupil expenditures are comparative to its peer group. The Administrative cost per pupil of 3% ranks similarly to the rest of the groups, as indicated in the chart above. North Reading's instructional per pupil expenditure cost ranks among the lowest of its peer group at 5%. The table above also shows North Reading is in the top half in teacher cost per pupil at 39%. North Reading's expenditures for operations, maintenance and benefit costs ranks fourth in this peer group of ten communities. These percentages show North Reading keeps up with the pupil expenditure trends of surrounding districts as they are not underspending or overspending.

PERFORMANCE TRENDS AND ANALYSIS

Beginning, in FY 2016 the Department of Elementary and Secondary Education (DESE) began calculating per pupil spending by school as well as by District. The spending level per school in North Reading has been very evenly distributed among the five schools as illustrated in the graphic below. On a per pupil funding basis, the North Reading High School had the highest per pupil spending for the FY 2021; when you include all the funding sources of state, local and federal appropriation. The North Reading High School spent more, per student, than the state of Massachusetts spent on average, which was \$18,521 when including both state, local, and federal funds.

Foundation Budget Gap

The Education Reform Act of 1993 established the foundation budget to ensure adequate funding for all students in Massachusetts. Since then, some of the assumptions contained in the formula for calculating the foundation budget have become outdated. In particular, the actual costs of health insurance and special education have far surpassed the assumptions built into the formula for calculating the foundation budget. As a result, those costs have significantly reduced the resources available to support other key investments. In addition, the added amounts intended to provide services to ELL and low-income students are less than needed to fully provide the level of intervention and support needed to ensure the academic and social-emotional success of these populations, or to allow the school districts serving them to fund the best practices that have been found successful.

In 2014, a commission was established to review the foundation budget and chapter 70 formula. To meet these challenges, the Commission focused not only on identifying areas where the foundation budget and district spending might be poorly aligned or out-of-date,

PERFORMANCE TRENDS AND ANALYSIS

but asked questions about best practice, efficiency, and productivity, to ensure that gaps between foundation budget assumptions and actual spending were not simply filled because they existed, but were filled because exhaustive analysis showed that either maximum efficiencies had been sought, or that even maximizing efficiencies would not have allowed districts to fully close such gaps.

North Reading's current foundation budget gap for health insurance and other benefits costs is 3.7 million. The Chapter 70 Review Commission found that statewide spending on actual health insurance cost far exceeded the foundation budget allotment by 140%. In North Reading, who has done a good job at controlling fixed costs, that amount is currently 74%.

North Reading's current foundation budget gap for out-of-district tuitions is \$936,347. This supports the Chapter 70 Review Commissions finding that the foundation budget significantly underestimates the cost of out of district special education in some cases by as much as 59%, which happens to be the exact amount of the gap in North Reading.

PERFORMANCE TRENDS AND ANALYSIS

North Reading's actual special education costs far exceed the foundation budget allotment by 3.8 million. This is consistent with the Chapter 70 Review Commission's findings that the existing formula significantly under estimates actual in and out district special education costs.

North Reading's actual expenditures in the major foundation budget categories far exceed the foundation budget in all categories except Administration, Instructional Materials and Technology, and Operations and Maintenance expense categories. The Classroom label may seem close but the actual spending is \$506,829 more than the foundation spending. If the Foundation Budget Review Commission's recommendations were fully funded, North Reading would be due to receive an increase in Chapter 70 state aid. If the minimum aid per pupil recommendation were to be fully funded which raised the base amount each district receive for each student North Reading's Chapter 70 aid would increase annually.

PERFORMANCE TRENDS AND ANALYSIS

The majority of the School Department's funding comes from the general fund, which are funds appropriated at Town Meetings and revenue generated from local property taxes (71%, seen on the graphic below). The amount is very similar to North Reading's peer district and to other communities across the state who predominately rely on revenue generated from local property taxes. Other revenue sources include revolving funds, federal and state grants, and Chapter 70 state aid. As you can see from the above bar graph these other revenue sources have been flat over the last five years which has created more of a strain on local revenue sources. North Reading like many other communities across the state receive minimal funding from state aid as we are considered an affluent community. North Reading, as indicated by the graphic above, expend far more then what we are required to spend by the state, on average 16-17% more than our required net school spending amount, which is also happens to be the state average.

Graduation-Rates and Plans

North Reading's adjusted graduation rate is the highest of the peer districts by just 0.1% with a four-year adjusted graduation rate of 99.4% in FY 2022. This extraordinary statistic is also 9% higher than the Massachusetts state four-year graduation rate average of 90%.

Many peer high schools also send around 80% of graduates to college. North Reading's college attendance rate has 79% of graduating students attending either a 4-year or 2-year college. This rate is above the state average of 62%, but when compared to their peers North Reading is towards the bottom.

PERFORMANCE TRENDS AND ANALYSIS

Student: Teacher Ratio & Class Size

North Reading's student teacher ratio of 11.1 in FY 23 falls below the state average of 11.9. This means North Reading has 1 teacher for every 11 students enrolled. This can be viewed as a positive because this means students are able to form closer relationships with their teachers, which in turn can have a lasting impact on the student's ability to learn.

North Reading ranks third in average class sizes (at all levels) of its peer communities at 18.3, and is greater than the state average of 17.1. North Reading has made progress of reducing this ratio over the last four fiscal years. This progress was halted this year because North Reading's average class size increased by one whole student from last year. This increase is consistent with the state trend as the state average increased by about two students from the previous year.

PERFORMANCE TRENDS AND ANALYSIS

In FY'23, only 32 classes in core academic subjects including elective courses have class sizes of 24 or more students and only 4 of those classes are non-elective classes. This represents 17% of classes at the high school, down from 37 classes from last school year. The average class size for these courses is 18. These are ideal class sizes for teaching and learning.

Today, 9 classes in advanced placement and honors course have class sizes of more than 24 students. This represents only 10% of advanced placement and honors classes having more than 24 students, down from 15% last school year. The average class size in these courses is 17.5, which is ideal for an advanced teaching and learning experience.

MCAS: Next-Generation

In 2023, All North Reading students performed well above the state average on the English Language Arts and Mathematics MCAS exam once again.

As seen to the graphic below, on the next generation English language arts 2023 MCAS test, 67% of North Reading students in grades 3 through 8, exceeded or met expectations compared the 42% of grade 3 through 8 students who met or exceeded expectations in the state.

**2023 Next Generation ELA MCAS Test
Performance (Grades 3-8)**

On the graphic below, North Reading students scored similarly on the Mathematics portion as they did on the English language arts portion. 69% of North Reading students in grades 3 through 8 exceeded or met expectations compared the 41% of students who met or exceeded expectations in the state. These percentages are improved from 2022's 66% who met or exceeded expectations, 3% lower than 2023.

**2023 Next Generation Mathematics MCAS Test
Performance (Grades 3-8)**

North Reading High School students have consistently performed well on the ELA MCAS exam. In 2023, 80% of North Reading students scored met or exceeded expectations, 15% higher than 2022. This is much greater than the state average of 58%.

PERFORMANCE TRENDS AND ANALYSIS

2023 Next Generation ELA MCAS Test Performance (Grade 10)

North Reading High School students have consistently performed well on the Math MCAS exam. In 2023, North Reading saw another increase in the number of students who met or exceeded expectations from the previous year, 77%, which is greater than the state average of 50%.

2023 Next Generation Mathematics MCAS Test Performance (Grade 10)

In 2023, 76% of North Reading 10th grade students met or exceeded expectations, which is greater than the state average of 47%. This is an 11% increase from the previous year, furthering the excellence of North Reading secondary education.

2023 Next Generation Science and Technology MCAS Test Performance (Grade 10)

ACT & SAT-Trends and Comparisons

SAT and ACT tests are measures of academic readiness for college studies. North Reading students have had a strong record of performance on college entrance exams.

Median ACT scores for North Reading have consistently been strong and above the state average. In 2021, North Reading scored above the state average in every subject area, and Massachusetts scores were the highest in the nation. The percent of North Reading students taking the ACT test has also steadily increased. For Example, since 2012, the percent of students taking the ACT has increased by 52% from 33 to 77 in 2018.

A benchmark score is the minimum score needed on an ACT subject area test to indicate that the student is ready to achieve a grade of B or higher in a college level course. North Reading has consistently scored high in each subject area in this category, significantly outperforming the state.

PERFORMANCE TRENDS AND ANALYSIS

Median SAT scores for students from North Reading have historically been significantly higher than the state average and of its peer communities. North Reading students have performed very well on the SAT test. In 2023, North Reading's scores were well above the state average in both reading/writing and math.

North Reading has consistently achieved SAT scores higher than the state average, which was 560 in Reading/Writing and 553 in Math in 2023. Historically, North Reading has also scored in the upper half of its peer districts, ranking fifth in both reading/writing and math.

Advanced Placement

North Reading's AP program has grown dramatically over a twenty-year period from 8 courses in 2004 to 22 courses in 2022. The number of AP exams administered has also significantly increased over this same twenty-year period from beginning at 87 to reaching highs of 500. Many of the high-level courses taught at North Reading during 10th, 11th and 12th grades rival those taught in liberal arts colleges.

North Reading High School ranks in the middle of its peers for high schools offering the most AP courses and subsequently have more students taking AP exams. For the year of 2023, North Reading ranked sixth out of ten peer schools for the percent of each graduating cohort taking at least one AP exam while in high school, and much higher than the state average at 20% of the total high school student population.

Scores on AP exams of 3, 4 or 5 are considered by the College Board as predictive of college success and college graduation. 80% of North Reading students taking AP tests received 3 or higher on their exams, 3% higher than the previous year. North Reading ranks within the top five out of the ten peer schools for percentage of AP tests with a score of 3 or higher. However, North Reading also scored higher than the state average of 75%.

PERFORMANCE TRENDS AND ANALYSIS

North Reading High School has always had a high percentage of students taking advanced placement courses. The school trend has been less students taking advanced classes in the last five years, starting at 400 in 2018 to 338 in 2022. In 2021-22 North Reading had 65.4% of 11th or 12th grade students complete at least one advanced course, which is 7% lower than last year and 13% lower than the state average of 78% this year.

College Acceptance

In 2023, 173 seniors sent 1,379 applications to 258 colleges, 35 of these applications were early decision and 611 were early action. According to the Common Application, the average New England student applies to 7.9 colleges. Each North Reading senior applied to an average of 8 colleges (Just about at the state average of 7.9). Below is a chart that details the top ten colleges or universities North Reading seniors applied to in 2022 and 2023.

2023

1. UMass Amherst- 69
2. University of NH -49
3. UMass Lowell -40
4. University of Connecticut -34
5. Providence College -33
6. Merrimack College- 33
7. University of Rhode Island -32
8. Endicott College-28
9. Northeastern University - 27
10. Sacred Heart University -26

2022

1. UMass Amherst- 72
2. University of NH -55
3. UMass Lowell -39
4. University of Connecticut -35
5. University of Rhode Island-27
6. Merrimack College- 27
7. Northeastern University -26
8. Penn State University -26
9. Syracuse University- 24
10. Boston College-21

Special Populations

Special populations often take additional resources to support student success. These special populations include Limited English Proficient (LEP) students, students from low-income families receiving free or reduced lunch, and students receiving special education (SPED) because of a disability. Collectively these are “high needs” students.

North Reading’s special population is in the middle of the pack among its peers. Most students receiving special education services do so in North Reading’s Learning Centers. These students are fully included in regular education classes. At the secondary level many students have one of the classes in their schedule dedicated to receiving IEP services. All of North Reading’s peers including North Reading are significantly below the state’s percentage of LEP, high needs, and economically disadvantaged student populations.

The percentage of North Reading students identified with a learning disability and receiving Special Education services is 19%, which is within median ranges of our peer districts, and just below the state average of 19.4% in 2023.

PERFORMANCE TRENDS AND ANALYSIS

The cost of out-of-district placements can be expensive. North Reading's out-of-district placements had hovered between 32-36 for years, and the ten year average out-of-district placements is 35. North Reading experienced an increase in out-of-district placements in FY 14, where it reached its highest point since FY10. Currently, In FY24, out-of-district placements are on the rise and is now at 37. North Reading continues to work hard at developing specialized programs to meet the needs of all students.

North Reading ranks in the middle when comparing the percentage of students that are educated in out-of-district placements with its peer communities. North Reading is also currently right above the state average in this statistic as well. The district has been actively working toward decreasing the need for out-of-district placements. Support for “in district” students has been expanded by adding Language-Based Learning Disabilities programs and North Reading is working toward enhancing its social emotional programs and support.

PERFORMANCE TRENDS AND ANALYSIS

The North Reading student population with disabilities has consistently been about the state average. For fiscal year 2023, 19% of students had a disability, which is about the state average of 19.4%. This represents 454 students out of the 2,383 of the total student body in the North Reading district, these numbers include students being educated outside the district.

North Reading ranks among the middle of its peer group when providing staffing to educate students with disability (SWDs). The major area of impact for North Reading is the low number of paraprofessionals, although it is at the state average, peer schools have more paraprofessionals per one hundred SWDs. It has always been a priority for North Reading to provide the instruction and support services necessary to education all students.

Section 7

Capital Improvements Plan

FY 25- FY 29

School Department Five-Year Capital Plan Updates FY 25-29

The School Department recently at an October School Committee meeting presented and received approval of their five-year large capital improvement plan. The school's capital plan consists of projects that fall into three major categories, Vehicles, Technology and Facilities. Projects that qualify as large capital must have a unit or project cost greater than \$25,000 and a useful life of at least five years or more. The process of reviewing and making updates to the school's capital needs takes place during the fall each year by School Department Officials. It is the goal of the capital plan to identify short and long-term capital projects in need of funding to help move the district's educational objectives forward and to continue to provide a safe and healthy learning environment for students and staff. The School Department submits requests annually to the Capital Improvement Planning Committee (CIPC) to review. The CIPC determines the guidelines, funding strategies, and policies to provide the foundation to guide the communities' capital decisions. The nine-member Capital Improvement Committee consists of all major stakeholders, including members of the Select Board, Finance Committee, and School Committee, as well as, Town and School officials.

Vehicles

The School maintains a fleet of four student services vehicle's which are used to transport students each day and three building and ground vehicles used for a variety of purposes including snow removal, deliveries, and to ensure the proper upkeep of school grounds. The School Department also has two Multi-Function Activity 15-passenger vehicle used for both athletic and extra-curricular transportation.

The School Department received a state grant with the assistance of State Representative Brad Jones. The grant is enabling the District to replace the 2011 student services van this school year the oldest van in the fleet. Once received the new van will be used as an additional van the District would operate daily to meet both in-town and out-of-district transportation needs of special education students. The 2011 van could remain in operation as a spare for another year before being taken out of operation. This van is over eleven years old with over \$109,000 miles on it and will eventually be traded in.

In addition, the School Department has a need to replace it's 2014 Ford F-450 utility truck used by the Grounds Department. This vehicle is ten years old with over 90,000 miles on it but has been breaking down costing the District more in repairs each year, including costly engine and truck bed repairs in recent years costing over \$10,000. The cost of replacement of this vehicle which the district will be requesting for fiscal year 2025 is \$95,000. All other Buildings and Grounds vehicles and equipment remain in good condition and are maintained by the Department of Public Works on a regular basis.

Technology

Other projects listed as priorities for next school year falls under the category of technology. This includes an \$150,000 request to begin to replace many of the current interactive and projection setups within the Middle / High School classrooms. These smart-boards were installed with the building project in 2013 and 2014 and are approaching 10 years old and reaching the end of their useful life. The plan involves addressing this need with a phased-in approach beginning in FY'25 with a goal of completing all classrooms by the end of FY'26. The project involves the replacement of the existing classroom set-up (desktops, SMART boards, projectors) with one-stop solution involving an interactive display board that will meet all of these needs and include the up to date technology, which enhances the interactive experience for students and educators.

Facilities

The final category is facilities and one of the requests included in the capital plan for next school year is to replace and repair many of the exterior windows at the Hood and Little Elementary Schools for a total request of \$75,000 to continue this process. The windows at the Hood and Little Elementary schools are in poor condition in various locations and this needs to be addressed. The windows are over 25 years old in most classroom locations and can be difficult to open and close. This would improve energy conservation efforts and reduce energy costs at these school locations as well.

Another major project requested next fiscal year in 2025 is to make needed repairs to the Hood Elementary School Roof that is approaching twenty-five years old. The District performed an infra-red moisture scan of the roof in October of 2023 and the roof could be a good candidate for repair and restoration over a full replacement which could extend the useful life of the roof by another ten years. The estimated cost of such a repair in these specific areas is estimated to cost between \$400,000 and \$500,000. Foregoing these major repairs and looking to fully replace the roof and seek assistance with the Massachusetts School Building Authority is also a possibility and something that could be considered over the next twelve months as well.

Another request with a cost of \$36,000 is to perform a feasibility study of both the Hood and Little School Modular classroom units which are both over twenty years old. These units are nearing the end of their useful life and such a study will assist the District in determining the appropriate next steps. The general intent of the assessment is to provide the information including cost on all available options including rehabilitation, replacement, or replacement with more permanent structures.

The final request for fiscal year 2025 is to upgrade the alarm systems at the elementary schools at a cost of \$60,000 between all three schools. These systems are outdated and have become costly and difficult to troubleshoot when issues arise. There is the possibility of State and federal grants could be available for such a project that the District will continue to pursue.

The District prepares projects over a five-year period and the full capital plan and presentation can be found on the district website at www.north-reading.k12.ma.us/budget.

NORTH READING PUBLIC SCHOOLS

5 YEAR LARGE CAPITAL PLAN

FY25-FY29

Notes:

1	<p><u>Special Education</u></p> <p>The District currently utilizes three special education vans daily to transport students between in-town special education programs. Currently, the 2011 van is used as a spare van. This van is also used to transport athletic teams and activities when appropriate, which has helped reduce athletic transportation costs. The 2011 van has 104,000 miles on it and is in need of replacement. The District received state earmark grant funding in FY'23 and will use these grant funds to replace this van during the current fiscal year. Once received the new van will become part of the regular daily transportation program and the 2015 van will become the spare van and when needed used for other extra-curricular activities. This van is in much better condition has \$69,000 miles on it and is a more reliable means of transportation. This van would need to be replaced by FY'27 when it would be 12 years old. A newer van model would also allow the District to better serve and meet student needs that required daily transportation to and from school.</p>
2	<p><u>Athletics & Extra-Curricular Activities</u></p> <p>The District currently contracts with an outside vendor to meet its athletic and extra-curricular activity transportation needs. The contractual rates have steadily increased and the program is currently spending \$80,000 on an annual basis, on average \$300 each athletic run per bus. The District received a Multi-Function School Activity Vehicle (MFSAB) in December of 2018. The District received a second Multi-Function vehicle in July 2021. Having access to two 14-passenger MFSAB's has enabled the District to transfer between 60-70 athletic runs annually in-house, approximately 20 runs per season. This has saved the District between \$18,000 - \$20,000 annually. During the 2021-22 school year the District spent only \$55,000 on athletic transportation costs. The second vehicle has also provided much greater flexibility to allow the District to meet the needs of other extra-curricular activities including the performing arts program.</p>
3	<p><u>Food Services</u></p> <p>The District replaced the 2005 food service van in the summer of 2019, with funds available in the food service revolving account. The food services department uses the new transit van to satellite food between the high school and the elementary schools that don't have a full size kitchen. The van purchased in 2019, is a smaller cargo transit-van and is much better suited to serve the needs of this department and will serve the food service program well for the next fifteen years.</p>
4	<p><u>Building & Grounds</u></p> <p>The District received funding for a new tool cat/bobcat for snow removal and landscaping purposes in FY'22. The vehicle has been used to maintain the MS/HS campus and all other schools. It is able to snow plow, sweep, front load, sand, spread and is equipped with many more attachments that has increased productivity and provided the versatility needed to properly maintain the schools year round. The 2002 Kubota Tractor should be considered for replacement in the future. The next vehicle in line for replacement is the 2014 F-450 Utility truck. This vehicle is ten years old with over 65,000 miles on it but has been breaking down costing the District more in repairs each year, including costly engine and truck bed repairs in recent years costing over \$10,000. All other Buildings and Grounds vehicles and equipment remain in good condition and are maintained by the DPW on a regular basis.</p>

Notes:

1/2	<p>The district has used a combination of large capital and operating funds to replace aging devices in the past. These devices include student devices i.e. personalized chrome books and HP laptop devices for instructional staff. This District has leveraged COVID-19 funding and state earmark grants with Representative Jones to secure enough student devices to last through FY'25. When this funding is no longer available the District will need to resume their annual allotment of needed funds for device replacement in fiscal year 2026. This will be through a combination of capital and operating funds. The cost to replace students devices includes about 2 grades per year or 400 devices at \$300 per device and teacher laptops about (40-50 devices) annually at \$800 per device. The annual funding needs for these student and staff replacement is about \$150,000 annually. Through a combination of general fund dollars \$90,000 added to operating budget in fiscal year 2022 and capital funds the district will be able to meet this need. The District may periodically need additional large capital funds to replace aging staff laptop devices every few years, which is anticipated to occur in FY'27 of the plan.</p>
3	<p>The classroom interactive and projection setups within the elementary classrooms across all 3 elementary schools were fully replaced the past three years through a combination of capital, grant, gift and operating funds. The project involves the replacement of the existing classroom set-up (desktops, SMART boards, projectors) with one-stop solution involving an interactive display board that met all of these needs and included the latest technology which enhances the interactive experience for students and educators. The next phase is to address the Middle / High School and bring this solution to these classrooms as well. These smart-boards were installed with the building project in 2013 and 2014 and now 10 years old and are reaching the end of their useful life. The plan involves addressing this need with a phased-in approach beginning in FY'25 with a goal of completing all classrooms by the end of FY'26. There is a total of 100 rooms between the Middle/High School and the estimated cost for this one-stop solution is \$3,000 per room for a total investment of \$300,000.</p>
4	<p>The WIFI Network Infrastructure at the Middle / High School including the wireless access points and switches were upgraded in the summer of 2023. The next major network infrastructure upgrade will be at the three elementary schools. The Elementary Schools wireless network infrastructure was installed in 2017 and plans to invest in an upgrade in FY' 2028. The cost includes upgrades for wireless access points and switches that will be at the end of their useful life and no longer supported in fiscal year 2028. The District would pursue e-rate category II funding that could assist with receiving a reimbursement which would help offset this cost by up to 40%.</p>

NORTH READING PUBLIC SCHOOLS

5 YEAR LARGE CAPITAL PLAN

FY25-FY29

Notes:

1	<p>The four Hood Elementary School modular classroom units were installed in 2000 and are showing signs of significant age and deterioration. The expected useful life of these units is generally between 15 and 20 years with proper maintenance and upkeep. The units have been well maintained and past annual inspections but have reached the end of their useful life. The units are over 20 years old and the time has come to develop a plan to address the removal and replacement cost. The Little School expanded modular classroom was installed in 2002 and is also showing signs of significant deterioration and is beyond its useful life at 21 years of age. The unit has been well maintained and passes annual inspections but the time has come to consider replacement. These classrooms at both schools house early childhood programs, the PreK program and other specialized learning and will be needed into the future with elementary enrollment expected to increase over the next ten years. The continued demand for specialized programs, and anticipation of a continued increase in the District's Full Day Kindergarten and early childhood programs over the next ten years, these structures are needed well into the future. The plan in the immediate future is to perform a feasibility study that would include an analysis of all options at both locations including, replacement and removal, as well as installation of a more permanent structure and its cost. The general intent of the assessment is to provide the information necessary, specifically information with respect to the actual structures of the buildings and of the systems serving the buildings, so we may decide whether or not rehabilitating the modular buildings meets our goals for the buildings, compared to replacing them with either new modular buildings or new permanent buildings. The cost of such a study is \$36,000. The current cost included in the plan above noted in FY'26 is an approximate estimate from Triumph Modular Company that performed walk throughs and initial estimates over the past two years. The estimate of replacement has increased significantly and is estimated to cost \$425-\$450 per square foot which would result in a total cost at the Hood Elementary School of \$1,793,925 and at the Little Elementary School of \$743,750 for a total estimated replacement cost of 2,600,000. The cost includes removal and full installation of all mechanicals of the new units. The plan above in FY'25 includes the cost of a feasibility study to be performed by a design, engineering, architect firm in which we have received a proposal to review all options in FY'25, and then proceed with the desired plan in FY'26. The plan would evaluate the potential for combining the structure and programs at one school location.</p>
2	<p>The Hood Elementary School Roof was contracted in 1999 and fully installed and completed in September of 2001 and is reaching the end of its useful life (25) years, the current roof is a welded seam Sarnafil roofing system. The District contracted with Tremco, Inc. to perform an infra-red moisture scan in the summer of 2017, which at the time showed little moisture penetration, approximately 1% of the 55,000 sq. ft. roof area, however over the past six years there has been several leaks and costly repair and maintenance work to maintain the structure and integrity of the roof. In 2017, Tremco Inc. concluded that the roof could be a good candidate for a roof restoration project, which would extend the life expectancy for an additional 20 years. The District is in the process of contracting for another infra-red moisture scan to determine if a smaller scale project could be performed in specific areas of need that could repair the membrane of the roof thus extending its expected life. An approximate budget estimate of the cost of this project for this smaller scale could be up to \$400,000. The project could also be a candidate for MSBA's accelerated repair program similar to that of the Little School Roof project. If the MSBA program is pursued the scope and cost of this project would most likely change and include additional overhead and indirect costs for project management, design, and oversight. The reimbursement rate could be as high as 48% if approved by the MSBA. If the MSBA program is pursued it is recommended that this project be proposed for funding consideration until FY'26 or FY'27 when the roof will be greater than 25 years old which is the <u>new age</u> requirement for the MSBA's accelerated repair program who will not consider project with a roof system any at or earlier than 25 years of age.</p>
3	<p>The District received \$50,000 to begin asbestos abatement work at the Hood and Little Schools in the summer of 2013. The Hood School kitchen and storage room and the Little School nurse's office and ceiling in the storage room and B-wing boys' lavatory were addressed. Additional abatement work from the original \$50,000 request continued in the summer of 2015. This additional \$75,000 request which includes, would remove most of the remaining asbestos floor tile from the Little Elementary School. The proposal involves 12,000 square feet of floor tile to be removed. Contractors use an estimated pricing that ranges from \$5.50 to \$7.50 per square foot based on the complexities and current market conditions at the time of bid. The only other school with remaining asbestos is the Hood Elementary School and the plan would be to address this in the future; there is no immediate abatement need at this time.</p>
4	<p>The District completed phase 1 and phase 2 of the athletic lighting field needs during the Spring and Fall of 2021. These phases provided lighting on the grass multi-purpose practice field, and will expand the use of that field for both the school and the community. Phase 3 of the project involves installing four light poles on the outfield of Carey Park (baseball field) which is used for soccer, field hockey, lacrosse and other activities both at the high school and in-town youth program including pop warner football. This would expand the use of the athletic fields at the Middle/High School campus for the school and the community. These funds are being requested in FY'27.</p>

NORTH READING PUBLIC SCHOOLS

5 YEAR LARGE CAPITAL PLAN

FY25-FY29

Notes:

5	The District upgraded the Little School Elementary HVAC system and was able to expand the HVAC's building management system. The next phase of this project would be to complete the Hood Elementary School and fully automate the HVAC control systems throughout the school similar to that of the Little School. If completed the district would maximize their ability to save energy and regulate occupancy schedules throughout each school. It is anticipated the district would save up to \$12,000 annually with enhanced regulation of the school energy and occupancy schedules. This project would bring the Hood School to the same level as the Batchelder School, Little School and Middle/High School allowing for increased ability to control energy use and reduce cost. This project is being proposed for funding in FY'27 and is anticipated to cost \$200,000 similar to that of the Little Elementary School which was completed in FY'22 and FY'23.
6	The three elementary schools are in need of an electronics systems upgrade based on the age and condition of the equipment. This upgrade would include improvements to the access control and intrusion alarm systems. The existing systems are between fifteen and twenty-two years old; Batchelder system was installed in 2005, the Hood system was installed in 1999, and the Little system was installed in 1997. These systems are outdated and have become costly to repair and troubleshoot when issues arise. An upgrade would allow for enhanced safety features, uniformity, and allow consistent safety protocols to be implemented at each school. There has been a significant advancement in technology over the last five years related to these systems. An upgrade to these systems would increase safety for staff, students and the public. This project calls for a phased-in approach to address the alarm and access control system. Future projects could address the video camera system to upgrade to the latest technology available. The District would like to address the alarm systems at the elementary schools first in FY'25 at a cost of \$60,000 between all three schools. There is the possibility of State and federal grants could be available for such a project.
7	The District with the opening of the Middle School/High School in 2013 begin the operation of a Wastewater Treatment Plant. This plant is a bioprocess membrane plant and is highly technical and complicated operation. The plant has three membranes and two air scour blowers which were replaced in 2019, and it is anticipated they will reach the end of their five to seven year useful life in FY'are in need of replacement. The anticipated life expectancy for this equipment is seven to ten years. The 2020-2021 school year would represent year 8 for the membranes which have had a hard life due to several factors and the operating conditions of the plant. The membranes died in the summer of 2019 requiring immediate replacement by the School Department. The District anticipates additional costs in the area of upkeep and replacement of parts, to that end we are seeking a large capital request within our five year plan to secure funding to make such upgrades again in FY'28.
8	The windows at the Hood and Little Elementary schools are in poor condition in various locations and this needs to be addressed. The windows are over 25 years old in most classroom locations and are difficult to open and close. This would improve energy conservation efforts and reduce energy costs at these school locations. The District has identified various windows approximately 12 to 15 windows in need of replacement in FY'24 with the initial \$50,000 appropriation. The cost has increased considerably and the cost with installation and removal for a new window is up to \$4,000 per window. The District with an additional appropriation of \$75,000 would be able to continue this replacement plan for another 18 windows in FY'27, This will continue to be a phased in approach with similar requests in future years to continue to address windows in needs or replacement at these two school locations.

This data is derived from the Department of Elementary and Secondary Education website and it populated from information submitted from the end of the year financial report. It is not a comparison of the salary schedule given different districts have varied staff demographics and may interpret data differently on the year end report.
